The action was taken after an evaluation was made based on the Westinghouse Justice Institute Report. Although the study was a very limited review of the Police Department, the study focused in on the patrol functions and administrative operation of the Department. As a result of the study a Police Community Relations Officer was established, also, the position of Planner for the Police Department. It also recommended increasing mobile police patrol by the addition of four police cruisers. Two are to be used by patrolmen who were transferred from foot patrol and two to be used by Sergeants who would be acting as Supervisors and also patroling sectors of the Town. Several other recommendations were also adopted, including an additional position at the rank of Captain in Charge of Operations. The Town Meeting approved the funding for the Police Department reorganization and most changes have been implemented for more effective protection for the public.

The Town Manager is to be commended for his initiative in this matter, especially since the study of the Police Department was completed by Professional Consultants through a Federal law enforcement assistance grant at no cost to the Town. The protection of the public is a most important function in every community and we feel that the reorganization completed this year provides a much higher level of protection and crime prevention in the Town.

The need for action on the expansion of the Hhigh School continued to be a matter that required positive action by the Town in order to meet future enrollment projections. At the request of the Permanent Building Committee and the Town Manager, the Board established a committee to study the expansion of the High School and relocation of the Town Yard as it was felt this land was needed to meet State specifications on open space requirements for the High School Addition. In October the Special Town Meeting approved funding for final working drawings, specifications, cost estimates and bid proposals for the renovation, replacement and new construction at the High School based on the recommendation of the Permanent Building and Finance Committees. Under Article 9 of the Warrant the Town Meeting established a Town Yard Site Selection Committee, said membership was basically the same as the original committee established by the Board. This new committee is continuing with its investigation and hopefully a location and final decision will be developed some time before the Fall of 1974.

The Selectmen from time to time throughout the year have appointed and met with several of our Advisory Committees, such as, the Advisory Committee on Community Antenna Television, CATV.

This particular committee has served not only the Board and the Town well but has been used as a resource group by the newly established State CATV Commission. We have been most fortunate in having a strong and capable committee. This group has provided much of the educational, informational and research data to the community which is necessary to keep the Town abreast of the changes in this rapidly changing field. The CATV Committee also was most instrumental in formulating and suggesting modifications to proposed State regulations.

Much of their input to the State resulted in directing the State to formulate more realistic controls related to State regulations that apply to local municipalities.

In Sepembei the Board established an Alcoholic Beverage Advisory Committee. It was charged with the responsibility of determing the feasibility and desirability of placing two questions on the ballot, one related to "Shall licenses be granted in the Town for the sale therein of all alcoholic beverages in packages, so-called, not be drunk on the premises?" and "Shall licenses be granted in this Town for the sale therein of alcoholic beverages by restaurants and function rooms having a seating capacity of not less than one hundred persons?"

This Committee has only started its work and their present plans call for a survey of residents, various Town organizations and Town Meeting members. The Board feels that this matter should be thoroughly investigated from the point of view of the value to the Town and also any adverse effects. We are most interested in the feeling of the community on this matter, therefore, the work of this committee will provide considerable data for a proper evaluation to be made on the desirablity of taking any action relating to the aforementioned questions.

We would like to express our apprciation to the members of the various Selectmen's Advisory Committees, namely, the CATV, the Transportation, County, Menotomy Rocks, Alcoholic Beverage Ballot, Regional School Weighted Vote, High School, Town Yard Site Selection Committees. The Town has been most fortunate to have so many dedicated citizens to serve on a voluntary basis. This is a most important element in our Town Meeting form of government. Many long hours have been spent by both men and women serving on various Boards, Commissions and Committees appointed by Town Meeting.

It is most amazing to see the progress and results that have been achieved by these involved citizens. The final product of our year of activity along with that of the other Boards, Commissions and Committees was the

continued improvement of the quality of living in the community making it a better place, as we move forward together.

In conclusion, we wish to thank the various department heads and the Town employees who carry out the day to day operation and service to the residents in many cases seven days a week — twenty-four hours a day. We also wish to thank our Executive Secretary and office staff for their loyal and valuable assistance.

To our legislative delegation at the General Court, Senator John W. Bullock, Representatives Eleanor M. Campobasso, William A. Pickett, John F. Cusack and Joseph S. Daly, we wish to indicate our appreciation for your cooperation this past year.

We are most appreciative of the support Congressman Thomas P. O'Neill, Jr. has given the Town relating to revenue sharing and other matters.

Finally to the Town Manager, the demand on your time, services, assistance to the Board has been greater than ever before. You have responded to these needs above our expectations. We wish to thank you for a job well done.

Arthur D. Saul, Jr., Chairman
Harry P. McCabe, Vice Chairman
John W. Bullock
Margaret H. Spengler

Town Manager

TOWN MANAGER
Donald R. Marquis

The first twelve months of fiscal year 1974 saw many developments at the local, state and federal level which had a significant impact on the Town of Arlington. Again general revenue sharing totaling over $830,000 was received and was applied to our operating budgets; these funds figured directly in our ability to stabilize the tax rate at $56.80 for 1973-1974. In 1974 we can expect upwards of $850,000 from this federal program which has from its inception stressed the autonomy and the decision-making capabilities of local government.

In addition to general revenue sharing, the town was able to receive other federal funding for various projects. Important to this office was a $25,000 grant from HUD for management assistance under the "701" program. With these funds we were able to fund the position of Urban Policy Coordinator and we are also able to hire the staff necessary to develop a six-year capital improvement program.

During the year the town also applied for a $72,000 grant from the Bureau of Outdoor Recreation. This grant would be applied towards the costs of the first year of the Recreation Facilities Committee's six-year plan and more specifically, would reimburse the town for 50% of the development costs and improvements at the Summer Street and Crosby Street playgrounds.

At the state level the most encouraging development was the passage of legislation by which the state would assume a greater percentage of the MBTA debt for the year 1974. Because of this legislation Arlington's MBTA assessment will be lowered by $600,000 and the 79 cities and towns in the MBTA district as a whole will save over $35 million in the coming year.

In the same year, however, the state legislature dealt a serious blow to the town meeting and the citizens of the town with the enactment of the binding arbitration bill

for policemen and firefighters. Long fought by our representatives at the local and state level, this bill will further tie the hands of management in collective bargaining and usurp the power of town meeting to decide wage increases by putting this power in the hands of an arbitrator.

At the local level we saw in 1973 a combination of challenge and accomplishment. Our biggest challenge has been and will be the construction of needed facilities at the high school and the relocation and construction of new facilities for the department of public works and the department of properties and natural resources. The special town meeting in October appropriated funds for the acquisition of land around the high school and for the final set of architectural plans as well as authorizing a committee to make a recommendation to town meeting as to the most suitable location for the new public works facilities.

On July 1, 1973 the police department, implementing the recommendations of a study funded by the Law Enforcement Assistance Agency, underwent reorganization. Among the more significant changes were an increase in the number of patrol vehicles and the creation of the positions of police planner and community relations officer.

Another reorganization which promises increased efficiency of operations in the future will be the transfer of inspection services from the department of planning and community development to the fire department, effective January 1, 1974.

One problem that the town has suddenly been confronted with has been a fuel shortage due to the energy crisis. Not only have our allocations been cut back, at least 20% for both gasoline and heating oil, but also, their prices have skyrocketed over the last three months of 1973. Between 1972 and 1973 the price of #2 fuel and the price of #4 fuel have increased over 100%. However, through a combination of good weather and energy conservation measures the town has been able to handle the problem with a minimum of inconvenience to both citizens and town employees.

Finally, I would like to take this opportunity to thank the Board of Selectmen, Town Meeting, the town boards and commissions and the citizens of Arlington for their cooperation in the past year and I look forward to their continuing assistance in 1974.

Respectfully submitted,

Donald R. Marquis

Town Manager

GENERAL GOVERNMENT

TOWN CLERK'S OFFICE STAFF

L to R: Florence R. McGee, Christine M. Callahan, H. Frances Conners, Mary A. Farrington (Irene C. Silva not shown)

The following annual report of the Town Clerk for the year ending December 31, 1973, is herewith submited. in accordance with Section 3 of Article 3 of the Town's By-Laws.

The total amount collected by the department during the year and deposited with the Town Treasurer was $26,032.01, an increase of $1,325.66 over the previous year. Included in the total amount was $8,886.10 for conservation licenses and $8,812.50 for dog licenses.

The breakdown of fees collected is as follows:

Marriage Intentions	$ 1,946.88
Filing Fees (Financing Statements, etc.)	1,617.00
Miscellaneous Certificates	3,789.33
Pole Location Orders	123.25
Miscellaneous Licenses	94.00
Renewals of Gasoline Permits	200.00
Miscellaneous Books	538.25
Duplicate Dog Tags	24.70
Dog Licenses	8,812.50
Conservation Licenses	8,886.10
TOTAL	$ 26,032.01

DOG LICENSES

1,305 Males	@ $ 3.00	$ 3,915.00
297 Females	@ $ 6.00	$ 1,782.00
1,029 Spayed Females (1 free)	@ $ 3.00	$ 3,084.00
6 Transfers	@ $ .25	$ 1.50
3 Kennel	@ $ 10.00	$ 30.00
2,640 Licenses Issued		$ 8,812.50
Paid to County Treasurer, Licenses		$ 7,889.45
Paid to Town Treasurer, Fees		$ 923.05

CONSERVATION LICENSES

556 Resident Citizen Fishing	@ $ 8.25	$4,587.00
205 Resident Citizen Hunting	@ $ 8.25	$1,691.25
141 Resident Citizen Sporting	@ $ 13.50	$1,903.50
65 Resident Citizen Minor Fishing	@ $ 6.25	$ 406.25
6 Resident Alien Fishing	@ $ 11.25	$ 67.50
6 Non-Resident Citizen/Alien Fishing	@ $ 14.25	$ 85.50
4 Non-Resident Citizen/Alien Hunting (Small Game)	@ $ 20.25	$ 81.00
8 Duplicate Licenses	@ $ 1.00	$ 8.00
11 Archery Deer Stamps	@ $ 5.10	$ 56.10
106 Resident Citizen Sporting	Free	
11 Resident Citizen Fishing, Paraplegic, Blind, Mentally Retarded	Free	
1119 Licenses Issued		$8,886.10
Includes 25 1974 licenses issued in 1973		
Paid to Division of Fisheries and Game, Licenses		$ 8,639.25
Paid to Town Treasurer, Fees		246.85

Your attention is directed to the reports appearing on the pages that follow upon the vital statistics of the Town which are recorded at this time. It should be noted, however, that the summaries of births, marriages and deaths are incomplete, inasmuch as records thereof pertaining to Arlington residents are still being received by our office from other cities and towns.

Mary A. Farrington
Town Clerk

Registrar of Voters

Mary A. Farrington, Town Clerk and Supervisor of Elections

The Registrars of Voters herewith submit their annual report for the year ending December 31, 1973, in accordance with Section 3 of Article 3 of the Town By-Laws.

Temporary Assistant Registrars were again designated by our Board to make a complete canvass of the Town, as required by law, for the purpose of taking the Annual listings of persons seventeen years of age and older residing in Arlington on January 1, 1973, and in conjunction therewith a listing of owners or keepers of dogs, both as required by law.

Following completion of the annual listing of persons, the voting list was revised in accordance with the information received from the Temporary Assistant Registrars. A total of 4,386 notices were sent by first-class mail, as required by law, to persons whose names were to be removed from the voting list for the reason that they had not been reported as residing in Arlington on January first. Those who proved residence were reinstated.

As a result of the notices mailed, names of voters who had moved out of Arlington were removed from the voting list. In addition, names were removed because of death, change of name by marriage or court decree, failure to comply with the notice and other changes in voting status. The total number of registered voters upon completion of the revision of the voting list was 29,711 and of this number 14,958 were enrolled Democrats and 4,331 enrolled Republicans, as of June 1, 1973. Following is a breakdown of registered voters by precincts:

Precinct	Total Number Voters	Total Democrats	Total Republicans	Total Unenrolled Voters
1	1,168	689	56	423
2	1,382	761	152	469
3	1,542	828	179	535
4	1,334	777	125	432
5	1,384	804	125	455
6	1,383	673	179	531
7	1,460	768	222	470
8	1,444	543	375	526
9	1,573	917	179	477
10	1,545	657	356	532
11	1,553	778	215	560
12	1,574	713	333	528
13	1,301	613	213	475
14	1,436	675	242	519
15	1,470	807	171	492
16	1,345	648	275	422
17	1,238	536	119	583
18	1,571	813	235	523
19	1,474	770	174	530
20	1,155	570	177	408
21	1,379	618	229	532
	29,711	14,958	4,331	10,422

Ten special evening sessions for the registration of voters were held during the year at various public buildings throughout the town. At these sessions, 34 persons were qualified to vote in primaries and elections.

Throughout the year, daily sessions for the registration of voters were held as usual during the regular business hours at the Registrars' Office in the Town Hall at which an additional 467 were so qualified, making a total of 501 new registered voters in 1973.

Our Board certified the signatures of 5,288 voters appearing in nomination papers filed by or in behalf of candidates seeking town offices, petitions for articles to be inserted in the Warrant for the Anunal Town Meeting and initiative petitions.

In addition, 136 names were certified on applications for absentee ballots for the Town Election.

For the Annual Town Election held on Saturday, March 3, the Registrars were in session throughout the entire period the polls were open — 8:00 A.M. to 8:00 P.M., after which they assisted in the tabulation of the ballots cast until 1:40 A.M. Sunday, March 4.

A recount of the ballots cast in Precinct 1 for the office of Town Meeting Member for one year at the Annual Town Election on March 3, 1973 was held in the Hearing Room of the Town Hall on Friday, March 16, 1973 at 1:00 P.M. The result of the recount which becomes the

official record is included in the "Records of Elections and Town Meetings" which appear elsewhere in the Town Report.

Mr. Harlan P. Smith was reappointed as a Registrar of Voters for three years by your board.

During the year the information contained in approximately 35,000 listing slips of residents of the town on January first was transferred to their individual master cards, which provide for a complete official record of residence for all persons seventeen years of age or older from the time they first became residents of the Town of Arlington.

From this information, certificates of residence are issued daily to establish eligibility for attendance at State schools and colleges, receipt of old age assistance, veterans' services, social security, employment in state or federal civil service, and for many other purposes.

Registered Voters' Certificates are also issued from our records for use as identification and proof of citizenship.

Respectfully, submitted,

Joseph H. Cormier, Chairman
Alfred M. DeVito
Harlan P. Smith
Mary A. Farrington, Clerk

*Elected

All used and unused ballots, tally sheets, total vote sheets, voting lists, and all other records pertaining to the Town Election, properly signed and sealed, were delivered to the Town Clerk to be preserved by her during the time required by law.

The persons declared elected town officers, including town meeting members, were notified as required by the General Laws.

A true record.
ATTEST:

Mary A. Farrington
Town Clerk

In accordance with Section 61 of Chapter 51 of the General Laws, the return of the registered voters in Arlington at the close of registration for the Town Election on February 10, 1973, was forwarded to the Secretary of the Commonwealth.

The results of the counts of votes cast at the Town Election were forwarded to the Secretary of the Commonwealth.

In accordance with Section 132 of Chapter 54 of the General Laws, the total number of voters checked on the voting lists in each precinct was forwarded to the Secretary of the Commonwealth.

In connection with the work of the Department of Corporations and Taxation, a list of Town Officials was forwarded to the Director of Accounts.

RECORD OF RECOUNT — MARCH 16, 1973

Pursuant to the petitions filed with the Town Clerk in accordance with the provisions of law, a recount of the ballots cast in Precinct I for the office of Town Meeting Member for one year at the Annual Town Election on March 3, 1973, was held by the Registrars of Voters, assisted by duly appointed clerks, in the Town Hall Hearing Room on Friday, March 16, 1973, at 1:00 P.M.

The results of the recount, which becomes the official record were as follows:

PRECINCT ONE —
TOWN MEETING MEMBER FOR ONE YEAR

	Recount Total	Original Total
Robert D. Ellis, 4 Norcross Circle	192	193
*Joseph P. Caddigan, Jr., 18 Gardner Street	202	202
Mary T. O'Keefe, 111 No. Union St.	1	—
Blanks	35	34

*Elected

In accordance with the law, the ballots were returned to the Town Clerk, and the Registrars of Voters certified the returns as herein tabulated to be the amended result.

A true record.
ATTEST:

Mary A. Farrington
Town Clerk

Personnel Board

To the Citizens of Arlington:

The Personnel Board herewith submits its annual report for the year ending December 31, 1973.

The membership of the Board changed with the appointment of Charles J. Oppedisano to succeed Richard S. Murphy. Rudolph Kass was appointed to fill the unexpired term of Charles L. Doherty, Jr. who resigned because of extreme personal commitments on November 2, 1973. Emelio J. Rosselli, an employee representative, was reappointed for a three-year term and Stanford G. McEwen's term as an employee representative will expire on March 12, 1975. William F. Hayward's term will expire on March 12, 1974. Rudolph Kass was elected Chairman for the coming year.

The Board has held nine meetings during the year and considered twenty requests from individuals and committees relative to salaries and fringe benefits. After careful consideration, we are recommending three changes at the Annual Town Meeting. At the request of the Town Manager, the Personnel Director has attended several collective bargaining sessions with representatives of Local 680, AFL-CIO.

It has been ten years since the last study of the Classification and Compensation Plans, fringe benefits, and related matters. The Personnel Board, Board of Selectmen, and the Town Manager feel that another comprehensive study by an outside agency is in order and an article for such a study will be inserted by the Board of Selectmen in the 1974 warrant.

In addition to the meetings, we have had frequent contact with the Personnel Director on various personnel matters that have arisen between meetings. The Personnel Director has had numerous conferences with the Town Manager, department heads, employees and the Division of Civil Service on matters pertaining to Civil Service procedure, the operation of the Classification and Compensation Plans and the Leave Regulations. The following are some of the personnel procedures handled by the department this year:

Civil Service Requisitions	155
Emergency Appointments	58
Appointments, temporary, provisional and renewals	196
Permanent appointments	51
Promotions — permanent and temporary	34
Termination of temporary employment	228
Termination of permanent employment	49
Permanent and temporary transfers	11
Loyalty Oaths	72
Group Insurance	20
Civil Service Labor Applications	173

There are at present 585 full-time, 40 permanent part-time, 24 provisional and temporary full-time, 40 temporary part-time, and 31 seasonal part-time classified employees in the service of the Town. The peak employment period was during the summer months with a total of 794. These figures do not include personnel appointed by the School Committee.

The Board appreciates the cooperation and assistance given by the Board of Selectmen, Town Manager, Finance Committee, officials, boards, Town Counsel and employees in our effort to administer the duties and responsibilities involved. We also wish to express our sincere appreciation for the capable services of our Personnel Director, Lee Morris, who also serves as the Board's secretary and for the clerical work performed by Agnes G. Taylor.

Respectfully submitted,
William F. Hayward
Stanford G. McEwen
Charles J. Oppedisano
Emelio J. Rosselli
Rudolph Kass, Chairman

Town Counsel

I herewith submit my report for the year 1973 in accordance with Section 3 or Article 3 of the By-Laws of the Town of Arlington.

There have been twenty-six accident cases against the Town of Arlington this year. Three claims have been settled as authorized by the Town Manager and the Board of Selectmen. Two have brought suit and twenty-one are in abeyance. Of the previous years' claims and suits, nineteen were abandoned without suit, five were settled as authorized by the Town Manager and the Board of Selectmen and sixteen are still pending. A verdict against the Town has been appealed and this appeal is pending.

Two petitions for land damages in the Superior Court arising from the taking of land in the Mt. Gilboa area have been tried before a master and the Town has appealed claiming a jury trial. These two suits together with three other suits for damages for takings by eminent domain are pending in court.

There were ninety-five cases pending against the Town before the Massachusetts Appellate Tax Board petitioning for abatements on real estate taxes. Twenty-eight cases were withdrawn and settled at or before the time of trial. The other sixty-seven cases are pending.

Over one hundred and five contracts were prepared or examined and approved together with bonds, corporate votes, and insurance certificates relating to them.

Shortly after the closing date for the filing of nomination papers for town offices for the 1973 annual town election, an objection was raised to the Town Clerk by John P. Donahue, one of the candidates for Selectmen, that Margaret H. Spengler and George K. Rugg were ineligible to be candidates for Selectmen because of the language contained in the first sentence of Section 9 of the Town Manager Act entitled "Multiple Officers" which read: "A member of the Board of Selectmen, or of the School Committee, or of the Finance Committee shall, during the term for which he was elected or appointed, be ineligible either by election or appointmnt to hold any other town office, except the office of town meeting member". Mrs. Spengler and Mr. Rugg were otherwise qualified to run for the office of Selectmen.

The Town Clerk requested a ruling from the Town Counsel on the objection raised by Mr. Donahue. Based on the decision of the Supreme Judicial Court in the case of Wood v. Election Commissioners of Cambridge, 269 Mass. 67, which was the leading case on this point and which had never been overruled, the Town Counsel ruled that Mrs. Spengler and Mr. Rugg were ineligible to be candidates for Selectmen. Upon being so informed by the Town Clerk, they each brought a Petition in the Middlesex Superior Court for a Writ of Mandamus to direct the Town Clerk to place their names on the ballot as candidates for the office of Selectmen. Mr. Donahue was allowed to intervene in each suit.

Orders for Judgment were entered in each case on February 20, 1973 directing the Town Clerk to place their names on the ballot as candidates for selectmen in the annual town election on March 3, 1973 and the intervenor, John Donahue appealed both decisions. On February 22, 1973, a single Justice of the Supreme Judicial Court suspended the orders of the Justice of the Superior Court pending appeal and ordered that the ballots for the election not contain the names of Margaret H. Spengler and George K. Rugg as candidates for Selectmen.

Mrs. Spengler and Mr. Rugg then organized a "sticker" campaign and received the highest and the second highest number of votes in that order of the four candidates for the two openings on the Board of Selectmen. Upon instructions from the Town Counsel and by agreement between the parties none of the candidates for Selectmen were sworn in pending the determination of the appeal before the Supreme Judicial Court.

The Supreme Judicial Court heard the appeal on this case in October, 1973. In November, 1973 the Court handed down it's decision overruling the Supreme Court decision of a prior Court in the Wood case, and upheld the decision of the Justice of the Superior Court that Mrs. Spengler and Mr. Rugg were eligible to run for and hold the office of Selectmen. They were sworn into office in December, 1973 shortly after the futher procedings in the Superior Court were completed and are now serving as Selectmen.

The Town Counsel has been available at regular and special meetings of the Board of Selectmen, has worked in close co-operation with the Town Manager, has rendered opinions as requested by the Town Manager, various Boards, Departments, Committees and Officers, has attended meetings at State Boards and Commissions, and has been vigilant in all matters affecting the interest of the Town.

For the kind consideration and co-operation extended to me by all the officials of the Town during the past year, and especially to the Board of Selectmen and Town Manager, I desire to record my sincere appreciation.

Very truly yours,
Joseph A. Purcell
Town Counsel

Purchasing Department

I herewith submit the report of the Assistant Purchasing Agent for the year ending December 31, 1973.

We are continuing to obtain competitive prices for materials and services without loss of quality or performance.

As anticipated, we experienced a considerable rise in prices in many items.

Office materials and supplies showed a marked increase. We have experienced a great delay in the receiving of motor vehicles, trucks, etc. Some have not been received as yet due to present condition of our economy.

Probably the greatest increase was in fuel oil due to the Energy Crisis which engulfed us all. For example in 1968 we were paying .1219 per gallon for No. 2 fuel oil. In January of this year we were paying .1425 per gallon and in December the price had risen to .4042, an increase of approximately 183%. The small suppliers will not bid due to the fact that in many instances they are supplying domestic oil and do not have enough in their quotas to take care of their household customers and supply our relatively large needs.

On the No. 4 fuel oil, bid price was $5.87 per barrel, and the present price is $10.79 per barrel. Last year in November the price was $4.28 per barrel.

We found it a very difficult year to obtain gasoline bids. We called for bids but did not receive any. We contacted many of our neighboring communities and found they were experiencing the same difficulty. We did negotiate with Chevron Oil Co. who have been supplying us on our last bid contract, and they are furnishing us gasoline at the present time. In 1968 the price was .1907 per gallon, in February of 1972 the price was .2008 and December 1973 the price is .327 per gallon, approximately a 63.0% increase.

We participated in a cooperative bid on road salt with Belmont, Brookline, Watertown, Weston, Cambridge, Waltham and Newton as in 1972 and were able to obtain a good price on road salt.

During the year we had approximately one hundred fifty sealed bids for materials or services for the various Town Departments. Specifications and bid forms were sent by circular letter to three or more vendors on items estimated to cost between $400.00 and $1,000.00. Bids were sought by public advertisement and circular letters on items estimated to cost over $1,000.00. All bids were carefully analyzed and forwarded to the Town Manager for his approval and awards were made to the lowest complying bidder.

In many cases, approximately one hundred, contracts were drawn, requiring bonds, insurance certificates, votes of corporation, etc. — subsequently approved by the Town Counsel before being forwarded to the Town Accountant. In addition to receiving bids we obtained prices over the telephone from reliable vendors on all orders under $400.00.

I wish to take this opportunity to express my sincere appreciation to the Town Manager, Board of Selectmen, various Commissioners, Town Officials, Committees, Department Heads and my staff for their cooperation throughout the year.

Warren E. O'Leary
Assistant Purchasing Agent

Housing Authority

HOUSING AUTHORITY

Seated: John J. Hogan; Standing, left to right: Mrs. Joan C. Gross, John F. Cusak, Frederick R. Buckley, Jr.

The Arlington Housing Authority submits herewith its annual report for the year 1973, which year marks the 25th anniversary of the creation of the Arlington Housing Authority.

At the Annual Town election, Mr. John F. Cusack was reelected to a term of five years on the Housing Authority. At its annual organizational meeting held in March of 1973, the Housing Authority elected Mr. John J. Hogan, Chairman; Mr. John F. Cusack, Vice-Chairman; Mr. Frederick R. Buckley, Treasurer; and Mrs. Joan C. Gross, Assistant Treasurer, all officers to serve for a period of one year.

In addition to the operation of over 500 apartments under the State Housing Program, including 308 elderly, 176 Veterans apartments and over 50 apartments under Chapter 707 of Massachusetts Housing Act, the State Rental Assistance Program, this Authority executed in March, a contract for financial assistance with the Commonwealth in the amount of $2,100,000 for the construction of an additional building for elderly persons to contain approximately 120 apartments in the Drake Village section of the Town. For the design and development of this new Project, the firm of Symmes, Maini & McKee was commissioned as architects. It is expected that construction on this new elderly Project will start in early 1974.

The Authority was also able to implement its Federal Leased Housing Program under Section 23 of United States Housing Act by which the Authority is able to subsidize the rent of 20 low income families and 20 low income elderly and disabled persons. Subsidies received under this, the first Federal funding of housing in the Town of Arlington, during the course of the year, amounted to over $31,000. A meeting, open to the general public and all Town officials was held in March at the Town Hall to familiarize all potential landlords and tenants with the program.

Subsidies received from the State for its Elderly, Veterans, and Rental Assistance Programs were in excess of $340,000. The Authority also, in cooperation with the Menotomy Manor Tenants Association and the Drake Village Association, was able to increase the Modernization Funding for its projects at Drake Village and the Veterans Housing Project from an initial grant of $30,000 to $278,000, to renovate these two oldest projects of the Arlington Housing Authority.

Income limits established in 1971 for all projects were revised upwards during the course of the year and the income limits for the Federal Program and the State Program are now on a parity. These income limits are on file for public examination at the office of the Housing Authority.

During the year, the Housing Authority made a payment in lieu of taxes to the Town in the amount of $6,336.00, the maximum allowed under State regulations.

The Authority wishes to thank the Board of Selectmen, Town Manager, and all other Boards and Department heads for their excellent cooperation in various matters throughout the year.

Respectfully submitted,

John J. Hogan, Chairman
John F. Cusack
Frederick R. Buckley, Jr.
Joseph S. Vahey
Joan C. Gross

ENGINEERING

The Engineering Department continues to serve in its advisory capacity providing technical assistance and expertise to the citizens of the Town, Boards, Commissions and other Town Departments. The emphasis, town-wide, continues to switch from public and private new construction to maintenance and reclamation. This department has for several years now capably administered a highly sophisticated street maintenance program and during the past year this department successfully initiated action to solve major sanitary sewer problems which had been cause for concern for over a decade. We also played a major role in the reclamation of drainage resources and open spaces.

I extend my thanks to the members of the Town Boards, Committees, and Departments as well as to the Engineering Department Personnel for assistance received throughout the year.

ROBERT L. HIGGINS

Town Engineer

Board of Assessors

BOARD OF ASSESSORS
Left to right: Paul E. Cantrell, William Hauser, John B. Byrne, Abner F. Wyman

REPORT OF THE BOARD OF ASSESSORS

The Board of Assessors held their regular weekly meetings on Monday evenings at 7:00 P.M. Special meetings were scheduled by the Chairman on Wednesday afternoons, Wednesday evenings and hearings were held on Saturdays.

Mr. William O. Hauser, Jr., was elected for a 3 year term at the Annual Town Election on March 3, 1973.

At the annual organizational meeting the Board members, Mr. Paul E. Cantrell, Mr. John B. Byrne, Jr. and Mr. William O. Hauser, Jr., unanimously elected Mr. Paul E. Cantrell as Chairman and Mr. William O. Hauser, Jr. as Clerk for the ensuing year.

In January the Assessors made inspections throughout the Town and assessed personal property at $11,708,350.00.

The 1973 tax rate was set and approved by the Tax Commissioner on July 27th at $56.80, which was also the 1972 tax rate. This stabilized rate was due mainly to the Federal Revenue sharing funds of $1,800,000.00.

The real estate and personal property tax bills were processed, completed and mailed by the Tax Collector on August 10th.

The number of applications for exemptions and abatements on Motor Excise, Real Estate and Personal Property totaled 11,935 on December 21st on 1972 and 1973 taxes. This is nearly 5000 more applications that required processing by the Assessors office than in the previous year. These additional applications were on Motor Excise bills and require prompt attention for the Tax Collector's office in the correction of commitments and bills, which were mostly duplicate billings. The Motor Excise Tax is billed by the Registry of Motor Vehicles, whose computer tapes have not been properly programmed on transfers of cars. As a result, there were many duplicate bills and some bills on cars sold a year or more earlier. The work load in this area has nearly tripled at an additionl expense to the Assessors office. Until the Registry of Motor Vehicles updates and corrects their billing, we can see no relief in this area. Our office staff with Gladys S. MacPhail as Head Clerk, Mary A. Glover, Anna C. Fox and Norma M. Sabol, have efficiently and courtesously handled an overload of work in this past year.

During the year the Board of Assessors has met with and worked in cooperation with all of the Town Officers and Departments.

The Board of Assessors and their Assistant Assessor attended Tax and Appraisal courses at Middlesex Community College, University of Massachusetts, and also courses given by the Association of Massachusetts Assessors. The Board and staff members attended seminars and conferences offered by the Department of Taxation, The Association of Massachusetts Assessors and the Middlesex County Assessors Association.

The Building Inspector issued the following permits for 1973 and these properties were inspected by the Assessors. Valuation changes and record changes were made for the 1973-1974 tax levy.

Apartment Bldgs.	1	Roofings & Sidings	58
1 Family Dwellings	16	Swimming Pools	18
2 Family Dwellings	9	Demolish Bldgs.	18
Commercial Bldgs.	5	Signs	47
Additons & Alterations	145	Repairs	6
Garages	2	Miscellaneous	4

Respectfully submitted,

Paul E. Cantrell, Chairman

John B. Byrne, Jr.

William O. Hauser, Jr., Clerk

Abner P. Wyman, Asst. Assessor

HUMAN RESOURCES

1973 has proved to be a year of continued cooperation among the various divisions of Human Resources. Youth Services and the Youth Consultation Center have completed their merger and now offer a broader service than either was heretofore able to provide. The Recreation Division with its expanded programming has augmented both Youth Services and the Council on Aging. The Council on Aging budget will be included in Human Resources for Fiscal Year 1975.

In an effort to insure that there is a minimum of overlapping and that no gaps exist in services, a Mental Health Evaluation Committee has been formed to evaluate needs and services provided by the Division of Youth Services, Pupil Personnel Services of the School Department, Mystic Valley Mental Health Center, Council on Aging and the Juvenile Unit of the Police Department. The Committee has engaged the services of Joseph Hill Associates Inc., consultants to municipal and state government, as well as personally visiting and examining these existing programs.

In addition, Human Resources works closely with and holds memberships in groups such as the Area 315 Health Planning Council, Cambridge Economic Opportunity Council, Mystic Valley Mental Health Area Board of Directors, and the Mystic Valley Office for Children. With these groups, we hope to examine and plan to meet the needs of the diverse and growing concerns of citizens seeking adequate medical care, day care, opportunities for women, and problems of children with special needs.

We have begun to enter into planning for the Bicentennial Celebration and are following closely the developments in Special Revenue Sharing in the areas of Manpower and Social Services at the federal level; as well as the State reorganization plan and its impact on local and area programs particularly in regard to Veterans' Services.

If we are to continue to maintain the pride of our citizenry in the Town of Arlington, we must provide them with the means to enjoy a full and meaningful community life.

Recreation

The Recreation Division of Human Resources enjoyed another banner year in 1973. New programs were added and other programs improved to better serve the populous of Arlington. It is the hope of recreation in Arlington that at least one member of each family participate in some program during the year. Programs range in age from Pre-School Crafts to Senior Citizen activity, and in variety, from games and sports to chess and drama.

In the early part of 1973, new programs were begun to go along with the established schedule. Drama workshops, roller skating and cooking classes were added for youngsters and ballroom dancing for adults. These were made possible by the addition of some work-study students from local universities.

The Summer of 1973 was most successful. Good weather and limited vacations brought many residents in contact with the home town recreation programs. A record number of 5,959 Reservoir Beach Tags were sold and total attendance was 47,245, a daily average of 650 per day.

The playground program was altered and this brought about increased attendance and more quality programs. The eighteen playgrounds were divided into three, six-playground units. This brought about a closer relationship between children and staff and allowed for each unit to conduct weekly special events which were a tremendous success. Additionally, each unit conducted most of their activities within the unit which brought everyone closer together. Further, the division employed six work-study students who conducted a teen age program for the 13 to 18 year olds. Outdoor movies, special bus trips, use of school gyms and the use of the local Boys' Club highlighted the program. A basketball clinic schedule for both boys and girls was added to the playground schedule and over 150 boys and girls took part. This, along with the regular playground activities of baseball, crafts, softball and archery, gave many opportunities for youngsters to participate in wholesome activity. The playground program was spiced with the usual special events. The Annual Weenie Roast, sponsored by the Arlington Lodge of Elks and the American Legion Post #39 and the Final Day Carnival, sponsored by the Boys' Club Associates, highlighted the special events.

The summer also found the Recreation Division responsible for opening the Veterans' Memorial Rink on Summer Street as an indoor tennis facility from June 1 to September 1. The facility was a bit limited but many residents took advantage of the two courts on the average of about 15 hours a week. The Recreation Division also made available to groups a free picnic kit which many organizations took advantage of especially when they used Menotomy Rocks Park.

Photos by Eric Weiss

The summer also showed an improved program for Retarded Children, High School Basketball, Men's and Women's Softball League. The Chess Club at the Town Hall continued to operate every Friday night throughout the summer.

The Fall of 1973 found the usual amount of programs, along with the addition of some new innovations to broaden the base of recreation in Arlington.

New programs in the fall included a Pre-School Crafts program for 4 and 5 year olds, Senior Citizen Crafts, Floor Hockey for boys in grades 7 to 9, Girls' Basketball Clinic, a Magic program and a Tennis Instruction program for adults. All of these programs met with fantastic success and will be continued in future years.

The energy crisis brought about a change in the Saturday morning crafts program. To conserve fuel the program was switched to afternoon sessions, after school. Also, a labor dispute in early December caused considerable confusion with program scheduling. However, that situation was settled in late December and programs resumed at this point. The Division is looking forward to an eventful 1974 with new programs being introduced. The first of these will be a Co-ed Gymnastics Program for 4, 5 and 6th grade youngsters.

Recreation has continued to grow in Arlington during 1973 which was due in no small way to cooperation received from the Director of Human Resources, Town Manager, Board of Selectmen, Board of Park Commissioners and the many town officials and department heads. Also, the many very capable staff of full and part-time people who aid in the cause of recreation in Arlington — Something for Everyone.

Board of Health

The organizational meeting was held on January 8 and the Board Members, Mr. John M. Peters, Robert J. Carey, M.D. and Alan J. Wright, D.M.D. met and unanimously elected John M. Peters as Chairman for the ensuing year. Commencing January 1, 1973, appropriations for health services will be calculated for an 18 month period due to a change from our usual calendar year to the Fiscal Year effective July 1, 1974.

FINANCIAL REPORT

APPROPRIATIONS (18 Months)

Personal Services	$ 67,469.00
General Expenses	4,975.00
Mosquito Control	5,550.00
Capital Outlay	0.00
Mental Health Services	62,783.00
Communicable Diseases	10,500.00
	$151,277.00

EXPENDITURES (12 Months)

January 1, 1973 - December 31, 1973

Personal Services	$ 44,852.39
General Expenses	3,155.43
Mosquito Control	5,550.00
Capital Outlay	0.00
Mental Health Services	41,855.00
Communicable Diseases	5,464.22
	$100,877.04

RECEIPTS

Licenses and Permits	$ 669.00
Total Expenditures (12 months)	$100,877.04
Total Receipts	669.00
Net Cost to Operate	$100,208.04

TUBERCULOSIS REPORT

1973

Total number of new Tuberculosis cases reported in 1973			5
Total number of Tuberculosis cases reactivated			5
Pulmonary	7	Extra-pulmonary	3
Total number of cases currently active			4
Total number inactive less than five years			13
Total number cases revoked			0
Total number hospitalized in 1973			9
Deaths from Tuberculosis			0
Deaths from other causes			2

The Middlesex County Hospital has discontinued its clinic for x-ray services, as part of a routine examination. Many changes are being developed by the State Division of Tuberculosis Control, one of which is a new reimbursement system for out-patient care of tuberculosis patients in Massachusetts. The philosophy behind the new system is in keeping with that developed nation-wide. It is that as the number of active tuberculosis patients declines through the use of modern chemotherapy and as the preventive program of chemoprophylaxis is advanced, the need for long-term follow-up of ex-tuberculosis patients is no longer necessary.

At present, Arlington residents may obtain a tuberculin skin test (Mantoux) at Middlesex County Hospital Clinic, Monday through Thursday, from 12:30 P.M. to 2:45 P.M. The Evening Walk-In Clinic for mantoux testing has been discontinued, due to the decreasing numbers attending the clinic.

Other diseases declared dangerous to the public health and which were reportable to the Board of Health for the year 1973 is as follows: animal bites 115, chicken pox 83, Dysentery 2, german measles 6, gonorrhea 23, hepatitis 8, measles 7, meningitis 2, mumps 4, salmonellosis 4, scarlet fever (including strep throat) 29, syphilis 12, tuberculosis (all forms) 6, whooping cough 0.

As you will note above the statistics show that Arlington had only 7 cases of measles reported during 1973. We attribute this to the endeavors of local physicians who continue to inoculate with measles vaccine and to the Measles Vaccination Program conducted by the Board of Health.

Of great concern this year, particularly to Senior Citizens, was the predicted Influenza Epidemic by the State Department of Public Health. Consequently a multitude of telephone calls were received asking if and when the Board of Health would offer "Flu Shots." During September the Board Members unanimously voted to supply and administer "flu" vaccine to Senior Citizens and Town Employees. However, the vaccine was not readily available. Pharmaceutical houses were not prepared for the demand. As a result we experienced a delay on shipment of vaccine. Fortunately we did receive a shipment of vaccine and implemented the program through the efforts of the Board of Health staff. Many communities throughout the Commonwealth had to cancel-out their "Flu" Vaccination Programs due to the fact vaccine was not available. In this regard we were very fortunate here in Arlington. The Board Members wish to express their thanks to the Arlington Visiting Nursing Association, Council on Aging, School Nurses, all Volunteers and our own Public Health Nurse for a successful program.

During the Spring of 1974, we will conduct the Anti-Rabic Vaccination Clinic for dogs. Such clinics are held every other year as the rabies vaccine has a two year immunity level. Therefore, no Anti-Rabic Vaccination Clinics were held during 1973.

The Board of Health wishes to express its appreciation for the cooperation and assistance it has received from the Director of Human Resources, Town Manager, Department Heads, and especially to its own office staff.

INSPECTOR OF ANIMALS

There were 107 reports of persons being bitten by animals in Arlington during 1973. These animals were quarantined for a period of 10 days as required by law.

Animals which die before examination or during quarantine were taken to the Wasserman Laboratory. Here the brain is examined for evidence of Rabies, other tests are also made for the detection of the disease. There was one such head, it was negative.

There have been, fortunately, no cases of rabies in animals in Arlington for many years. Wild animals are a continual possible source of the disease. The public would do well not to handle such creatures.

I thank Mr. Comeau and his staff for their continued helpfulness and kindness to me. I also wish to thank the Dog Officer and the Police Department.

Respectfully submitted,
John J. Murphy, Jr., D.V.M.

Board of Park Commissioners

The Board of Park Commissioners elected Charles T. King, Chairman of the Board in January to serve with Kevin P. Feeley and J. Fred McGann. Mr. Feeley's appointment became official on January 15, 1973. He was appointed to fill the unexpired term of Lawrence Babine, who resigned in late 1972.

During the year, Mr. King attended regular meetings of the Spy Pond Study Committee and the Open Space Study Committee while Mr. Feeley represented the Board at Recreational Facilities Study Committee meetings.

In the March Town Meeting, article #27 called for an increase in their number and a change in the name of the Board of Park Commissioners. The article was passed and the name was changed with later legislative approval to the Park and Recreation Commission. The number of members was increased from three to five.

The Board worked hard during the year on the purchase of land located next to Pond Lane Playground. The State Public Access Board had planned to purchase the land and develop the shore of Spy Pond. However, in late October, the Public Access Board turned down the plan. On a more successful venture at the fall Town Meeting, the Board inserted two articles which were passed. The first was to purchase land next to Summer Street Playground on Forest Street, which would expand the present Summer Street Playground site. The second article was inserted with the School Committee and expanded the Parmenter School playground site. Also, the Board is hoping to acquire some tax title land at the 1974 Town Meeting.

The Board grieves the loss of J. Fred McGann on May 21, 1973. Mr. McGann had served on the Board since May 1956. His many years of dedication and service to the community will be sorely missed.

Consumer Protection

SEALER OF WEIGHTS & MEASURES

In 1973, the first full year of operation, we received over 700 calls. The majority of these queries concerned landlord-tenant relations. The others were divided among several categories, with the fuel crisis leading the list by the end of the year. In responding to these calls, we can generally only inform people of their rights; but if it will help them, we try to serve as mediator and expeditor. Early in the coming year, we will be forming a Consumers Council whose function will be to formulate and establish policies that will benefit the public. In response to the energy crisis, we were designated Home Heating Oil Office to help consumers in their fuel needs. As other crises arise, we hope to always be of assistance to the public.

The Sealer of Weights & Measures made the yearly tests of all the weighing and measuring devices in the town. However, as the prices of food, fuel and commodities rises, it becomes imperative to insure the public that they receive fair value for all purchases. The checking of prepackaged items is one of the most important ways the Sealer achieves this. In the coming years as buying and selling methods change, it will be even more important that the Weights and Measures Department is knowledgeable in this area.

Manpower Development

The Manpower Development Program went through three separate stages in 1973: slow and deliberate planning; hectic implementation; and positive program administration. During the spring the Manpower Development Coordinator participated in extensive budget hearings held by the Regional Ancilliary Manpower Planning Board (AMPB). The Department of Labor had agreed to FY74 budget of over $1,000,000 for the five town area (Cambridge, Arlington, Somerville, Belmont and Watertown), and the board had to decide upon the dollar allocation from the Manpower Development and Training Act (MDTA) and the Economic Opportunity Act (EOA) and the program mix within each Act. The AMPB decided to give emphasis to the EOA allocating 60% of the funds there with the remaining 40% being allocated to the MDTA. MDTA is administered by the local office in Cambridge of the Division of Employment Security and EOA is administered by a local Community Action Agency. The board decided to permit the Eastern Middlesex Opportunity Council to administer the EOA programs for Somerville and the Cambridge Economic Opportunity Committee, Inc. to administer the EOA programs for Cambridge, Arlington, Belmont and Watertown. Program mix of these programs for Arlington were decided upon by the Manpower Development Coordinator with particular emphasis being given Arlington High School youth.

During the spring, DOL indicated that summer youth employment programs were to be greatly limited and Arlington's allocation was to be nine positions as compared to forty positions the summer before. In June, a Pennsylvania Federal District Court ordered DOL to spend all summer monies, and within two days Arlington's allocation had increased from nine to eighty-five positions — a period of hectic implementation set in. During the summer, Arlington's youth were paid some $35,642 for performing at one time or another, close to 100 different jobs.

With the advent of fall, four categorical EOA programs were started aimed at particular hard to employ groups. The Neighborhood Youth Corp (NYC) In-School program was aimed at disadvantaged Arlington High School youth, and served them with twenty-three positions and a budget of $13,600; NYC Out-of-School aimed at Arlington High School dropouts with four positions and a budget of $34,500; and Operation Mainstream aimed at low-income elderly, with four positions and a budget of $24,000. During the fall, recruitment for these programs was made among the low-income community, with an intent of selecting those individuals who were hard core unemployed. DOL insisted upon certain age restrictions, income levels and sex quotas in order to fulfill their national objectives and this somewhat limited our ability to effectively serve Arlington in that some individuals were rejected solely on the basis of age or sex, rather than need. These four EOA programs were administered by CEOC, Inc. through the Manpower Development Coordinator and cooperation was excellent.

The last major manpower program in Arlington was the Public Employment Program (PEP), formerly the Emergency Employment Act, and aimed at the structurally unemployed such as veterans and engineers. Some $95,000 was expended in salaries in 1973 even though PEP was phased down from twenty positions to two positions in December.

In 1974, the Comprehensive Employment and Training Act will replace all of the above programs and combine them under Title I, Title II and Title III-A. Title I will be a general manpower revenue sharing with few restrictions; Title II will be a new public employment program; and Title III-A will address special needs groups. The Manpower Development Coordinator estimates the FY75 Arlington manpower monies may exceed $250,000 through Manpower Revenue Sharing.

Veteran's Services

Several changes in federal and state law concerning Veterans' Services were anticipated in 1973, which would seriously affect local programs.

At the federal level, SSI, Supplemental Security Income, became effective on January 1, 1974. This law brings under the Social Security System those veterans receiving assistance who are over 65, disabled or blind.

Another anticipated change concerned the eligibility of those receiving Veterans' Assistance to receive Medicaid, brought about by the increase in the exemption income allowance under the state administered Medical Assistance Program.

Still another ruling is expected from H.E.W. which would automatically make those receiving assistance eligible for the Medical Assistance Program.

Chapter 704 of the Acts of 1969, the Reorganization Plan, would change the present structure of Veterans' Services in the Commonwealth. Many of these changes are controversial and no implementation has yet taken place. Our major concern is to continue the high quality of locally administered services at the lowest possible cost to the taxpayer.

Youth Services

Youth Services has continued to reach out to adolescents and parents of adolescents with a variety of services. The backbone of the agency is the counseling component, including individual, group, family and couple counseling. We have had a total of forty-five groups meeting over the past year, most on a weekly basis. Individual, family and couple counseling has been offered to around 500 Arlington residents.

Because we believe in the importance of coordinating our efforts with other town agencies having an impact on youth, we maintain good close working relationships with the junior high schools, Arlington High, and Arlington Catholic High School. We have a solid working relationship with the juvenile officers of the Arlington Police Department, as well as with probation officers of Cambridge, Concord, and Somerville Courts.

We coordinate with the Welfare Department, Internists, Inc., Pregnancy Counseling, Division of Drug Rehabilitation, and many other agencies dealing with youth. We believe in helping youth from an active multi-service approach; not just with a face-to-face talk approach.

We continue to offer alternative living arrangements through our group home, Robbins Cottage, and through foster family situations. There are times when a young person and his parents may need space and time separate from each other to calm tensions and clear the air. Alternative homes provide this opportunity in a safe, sound way, particularly as opposed to street living.

We also continue our 24-hour hot line program, manned by trained volunteers. In the summer of 1973, one of our hot line volunteers was able to save the life of a young woman who made a "suicide call" on the hot line. The call was traced, and the police were alerted to give help to this young woman. The hot line remains an important and available resource to the Arlington community for information in drugs, venereal disease, problem pregnancies, etc.

In 1973, we have extended consultation services to many agencies in Arlington. We have been pleased to work with the Tenants Council, the Welfare Department, the Police Department, the School Guidance Department and School Administration. We have conducted training programs and workshops around group process, group concept, and use of groups with these various agencies.

Of primary importance to us this year has been the introduction of an alternative school program — S.T.E.P. to the Center. We have been sharing our facilities this year with S.T.E.P. (Step Toward Employment Program) and have found that the blending of our counseling staff and the school teaching staff, along with the open, flexible environment of the Center, provides a medium for reaching and working with youth who are not able to accept or make use of a traditional educational model. We are convinced that this kind of alternative school program enables these young people to remain in school and receive a high school diploma that would otherwise be totally unavailable to them. We have been tremendously encouraged with the youth response to the program — we began in September with 47 students and have 47 today, with a growing waiting list. One young man in the program missed 120 days of school last year, and has missed only 2 days in STEP this year. It's a very exciting combination of counseling and teaching and it is an approach more and more encouraged by government and professional people in both fields.

We continue to be an advocate for youth in Arlington. Through our in-house counseling services, consultation services, alternative housing service, and educational services, we offer a positive, preventive impact on the Arlington community, particularly its youth and parents of youth.

Council on Aging

The Council on Aging is pleased to submit this Seventh Annual Report to the citizens of Arlington, in accordance with the General Laws of the Commonwealth of Massachusetts, Chapter 40, Section 49; and with Article 3, Section 3 of the By-Laws for the Town of Arlington.

ORGANIZATIONAL:

There have been a number of personnel changes in the Council on Aging during the year 1973.

Three of the Council members were unable to accept re-appointment when their terms expired. Rev. Wilbur Canaday could not accept re-appointment as he had moved to Belmont. Another loss to the community is Mr. David Katzeff who also moved to Belmont. Mrs. Margaret Nichols was unable to accept re-appointment because of the press of other duties and obligations. Mrs. Nichols, however, is still serving as an advisor to the Council and is proving as helpful as ever in her new capacity.

While the Council misses the talents and capabilities of these former members, we were fortunate to have equally competent and dedicated citizens selected to fill the vacancies caused by their leaving. Mrs. Nancy Higgins, Mrs. I. W. Stephens, and Mr. Richard Lutus, have joined the Council and have been deeply involved in Council activities since their appointments.

Mr. Richard Lutus, retired Assistant Treasurer of Massachusetts Hospital Life Insurance Co., a twenty year resident of Arlington, has long been active in community affairs. In addition to his membership on the Council, Mr. Lutus is a member of the Board of Directors of the Arlington Golden Age Club, a member of St. Paul's Lutheran Church Council, a member the Board and Assistant Treasurer of the Arlington Chapter of the American Association of Retired Persons.

Mrs. Mary Stephens has been living in Arlington for over forty-four years. She is a member of the Town Manager's Advisory Committee and served on the Board of Directors of the Arlington League of Women Voters for twelve years.

Mrs. Nancy Higgins, originally of Somerville, has been an Arlington resident for five years. Mrs. Higgins has been a teacher in the Somerville School System for 35 years. Since moving to Arlington, Mrs. Higgins has been very active in community activities.

There have also been staff changes at the Council in the past year. Mrs. Phyllis Lavelanet left the position of Executive Secretary of the Council on Aging; and Miss Joan Murphy, R.N., Health Nurse for Project Create left to take a position at the University of Rochester, N.Y.

We were fortunate in almost immediately securing a successor to Miss Murphy so that there was a minimum interruption in the health services we were able to offer the Elderly of Arlington. Mrs. Louise Duggan, R.N., B.S., joined the staff in August. Mrs. Duggan, in addition to her duties with the Health Component of Project Create, is a candidate for a Master's Degree in Nursing at the Boston University School of Nursing which she will receive in June, 1974.

In December, Joseph F. Sheehan was hired as Executive Secretary of the Council. Mr. Sheehan has a Master's Degree in Social Work from the Boston College School of Social Work. Prior to joining the Council, Mr. Sheehan served for six years as New England Regional Representative of the National Council on the Aging.

In the meantime our other staff members are maintaining the high quality of work that has been their hallmark from the beginning. Mrs. Beverly Kerivan, Secretary/Bookkeeper; Mrs. Marguerite Coffey, Senior Service Corps. Volunteer; and Mrs. Diane Tainter, Outreach Worker; have kept services to the Elderly as their watchword in carrying out their responsibilities.

We have been fortunate this year in having the services of young people assigned to the Council by the Neighborhood Youth Corps., Rhonda Mcdonald and Cynthia Medeiros were assigned to us during the Summer months, while Cindy Chapman and Lisa Pappas are working in the office now. We would be remiss if we didn't point out the great help these young people have been to the operation of our total program.

In sum we feel that the Council and the Town can well be proud of the execellent work done by the staff in rather difficult circumstances over the past twelve months.

PROGRAM ACTIVITIES:

Since its inception seven years ago, the philosophy of the Council on Aging has been that its function is to serve as an advocate for the Elderly in the community. We regard it as our responsibility to provide programs and services

for the Elderly when these programs and services are not or cannot be provided by other agencies in Town. In an effort to avoid any duplication of services, however, we seek to have other organizations initiate such programs if it is within their area of service.

The major program the Council operates is Project Create, a program funded by the State Department of Elder Affairs under the terms of Title III of the Older Americans Act of 1965, as amended. Originally funded on March 1, 1972, Project Create continued through February 28, 1973, when it was refunded for a second twelve month period. During the First Project Year $28,449 was allocated to the Town — through the Council on Aging — by the Commonwealth; the Grant for the Second Project Year, which rus through February 28, 1974 is $27,350.

These funds, along with the money appropriated by the Town at Town Meeting, have been used in efforts to provide a three-pronged program for the Elderly. The three components of the program are heath counseling, coordination and community planning, and a Drop-In-Center. By means of these three components, Project Create is seeking to improve the quality of life for the Elderly in the community. This would include not only specific assistance to individuals in need, but also "advocacy" on behalf of all the Elderly in Arlington. Services are provided that all Elderly in the community can take advantage of,regardless of personal circumstances.

The Health Counseling Component focuses on prevention of illness, health maintenance and continuing self-sufficiency and independence. Health education programs, individual health counseling and referrals to medical practitioners, when appropriate, are the tools being utilized in carrying out these objectives.

Individual health counseling is conducted by the Health Nurse on a continuing basis at five sites around the Town: Drake Village, Chestnut Manor, Winslow Towers and Fidelity House are used for this service, as well as the Drop-In-Center at Jarvis House. In addition Mrs. Duggan is available frequently in conjunction with meetings of the Arlington Chapter 1255 of the American Association of Retired Persons, and with meetings of the Damien Guild. The Health Nurse also cooperates closely with the Department of Recreation (as does the entire Council) and, when possible, makes herself available for counseling during their programs.

Health education programs were conducted with great frequency during 1973. During January and February a program begun in 1972, "Let's Talk About Health", was continued. Topics for the various sessions, conducted by the Health Nurse in an informal manner, were initiated by the participants. Topics ranged from diet to exercise, and from finances to lonliness.

In March the Council co-sponsored, with the First Baptist Church, a Seminar on "On-Going Health Care". Other topics in health education during the year were: "Foot Care", a talk by Dr. George Andrew, Podiatrist; "Health Care and Medical Quackery", by Mr. David Kaplan; "Food: For Better or for Worse", a mini-course in anatomy conducted by the Councils Health Nurse. This latter program is to be continued during the months of January and February, 1974.

The Council participated in the Health Fair held in May and sponsored by the Arlington School Department. The Health Nurse was available at the Visiting Nurse's Association booth.

When the State Department of Elder Affairs funded Project Create for the Second Project Year, the health component was organized in the same manner it had been in the First year. That is, by sub-contracting services from the Arlington Visiting Nursing Association. Mrs. Jayne Tapia, R.N., Executive Director of the AVNA provides professional supervision for Mrs. Duggan. Mrs. Duggan also has professional consultation available to her from the Mystic Valley Mental Health Center.

Operated as a component of Project Create since its beginning, the Drop-In-Center at Jarvis House continues to serve the Elderly of the community. The Council and its staff have tried to be as broad as possible in planning the programs so that they would be of interest to as many different people as possible.

Among the programs offered at the Drop-In-Center were craft classes. Some of these were sponsored directly by Project Create, some were sponsored by the Recreation Department. Doll-making, crocheting, cake decorating, knitting, holiday decorating and gardening were some of the crafts classes held during the year.

Project Create sponsored a number of bus trips for the Elderly during the year. Buses were chartered to take people to Hampton Beach in July. A number of other trips, including Christmas shopping trips were carried out through the good offices of the Arlington School Department.

The Drop-In-Center lived up to its name during 1973 with over 900 Elderly people "dropping in". These "drop-in" were in addition to the craft classes, the formalized entertainments, and lectures, the monthly Birthday parties and other scheduled activities.

Volunteers took part in a training class (called Volunteer Income Tax Assistance) conducted by the Internal Revenue Service. The participants were instructed in how to help Elderly fill out their income tax forms so the Elderly would receive in refunds as much as they were entitled to receive. Incidentally, this same program is being con-

ducted in 1974, under the co-sponsorship of the Council and the Arlington Chapter of the American Association of Retired Persons.

The Center is open five days a week, eight hours a day. The Council makes meeting space available to other organizations in the community serving the Elderly.

The monthly program publicizes all the activities that will take place in the Drop-In-Center, as well as other programs in Town that we are aware of. This program bulletin is made available to the public housing for the Elderly in Town, to all the churches, libraries, and to the nursing homes of the community.

The Council initiated a training program for Senior Center Directors, Senior Club Leaders, and Officers of Council's on Aging in the Mystic Valley area. The training was conducted by Mr. Ernest Kraus, Director of Training for the Executive Office of Elder Affairs. Over 50 people from the five communities in the Mystic Valley Area took part in this opportunity to improve their skills in assisting the Elderly.

ACKNOWLEDGMENTS:

With a program such as the Council on Aging, listing people and organizations to whom we owe thanks is always done with some trepidation. The support of the total community has been obvious to us from the beginning and we are somewhat reluctant to cite individual instances lest we omit any who should be included. Nevertheless we do feel that we should give our special thanks to the following:

Without the support of the Town Manager, Donald R. Marquis, the Board of Selectmen, the Finance Committee and the Town Meeting Members, the Council on Aging would not exist. We recognize their concern for the welfare of the Elderly of Arlington, and we will do our best to deserve the trust they have placed in us.

Director of Human Resources, Arthur Johnson, has been more than helpful to us in the day to day operations of our program. He has accepted our problems as his problems and has been a source of great assistance in the resolution of these problems.

Through the tax abatement program we have created large amounts of additional work for the Board of Assessors. Nevertheless the Board has been most gracious and courteous in dealing with the Council and, more importantly, in dealing with the Elderly applicants for the abatements.

There are many others to whom we owe thanks, far too many to list. We are grateful to all of them who shared talents, efforts and facilities with us during the past year.

Respectfully submitted,

COUNCIL ON AGING

Carolyn E. Crosby, Chairman
Nancy G. Higgins
Richard A. Lutus
Harry P. McCabe
Dorothea E. Nicoll
Mary L. Stephens
Chester G. A. Zucker

STATISTICAL REPORT — 1973

During 1973, the following numbers of Elderly received direct services from Project Create:

SERVICE	NO. RECEIVING SERVICE	TOTAL NO. SERVICE UNITS
Homemaker	110	152
Home Health Aide	5	6
Home Maintenance	3	6
Companionship	11	16
Individual Health Counseling	1,516	4,395
Screening Clinics	711	1,086
Referrals to Health Providers	245	245

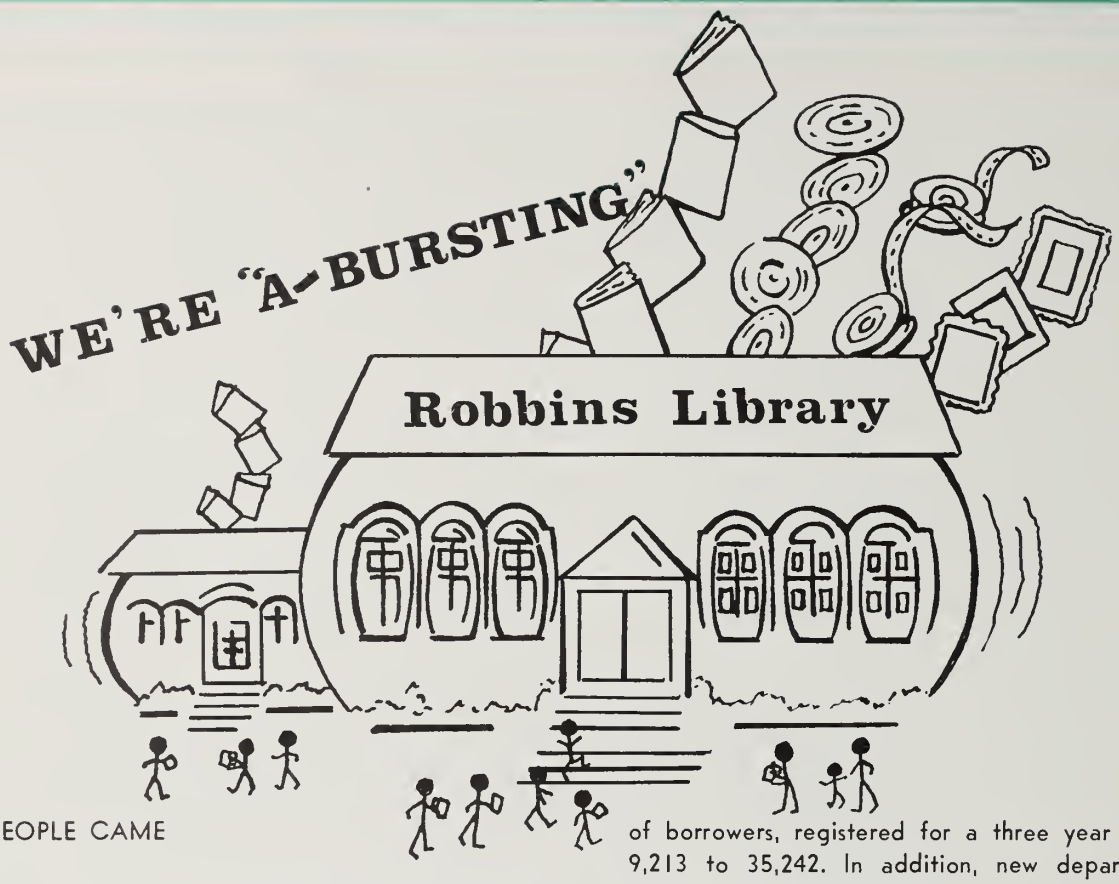
LIBRARY



THE PEOPLE CAME

The Robbins Library has as a goal SERVICE to all the citizens of Arlington. That so many took advantage of its facilities during 1973 was a source of satisfaction to trustees and staff alike. People came looking for books to read, for answers to questions and for information of one kind or another. When local sources were exhausted or lacking, help for borrowers was sought in wider fields. Especially were the services of the Boston Public Library used and appreciated, for, as the headquarters' library of the Eastern Regional Library System, the Boston Library is the principal resource center for Arlington. Daily delivery service, sponsored by the Eastern Regional Library, brought books, films and other materials requested by the people to the Robbins Library for their use.

OUT OF SPACE

In the busy year of 1973, however, there seemed to be one overriding concern on the part of the trustees and staff — the need for more space — space for books, for people, for work areas. The present Junior Library was added to the original building some forty years ago and during the intervening years the population of the town has increased from 36,094 to 53,524 residents; the book collection has more than tripled, from 49,999 volumes to 186,947 (including the volumes at the two branches) and the number of borrowers, registered for a three year period, from 9,213 to 35,242. In addition, new departments — the Music and Art, Business and Young Adults divisions have been established. As never before, people are spending time within the library for browsing and studying, research and enjoyment. No longer can the work of the library be judged by circulation statistics.

The trustees, well aware of the space problems, took action. In response to their request, a committee to study the adequacy of the physical plant of the main library was appointed by the 1972 Town Meeting. The committee reported to the 1973 Town Meeting that more space was needed and requested funds of $25,000 for preliminary plans for an addition. The request, however, was not approved.

MOVING DAY

The most congested area at the library was the Technical Services Department where all the ordering and processing of books is done. To relieve the almost unworkable conditions, the trustees, with the permission of the Town Manager, in November, voted to transfer this department to the only available space in the building, namely the Junior Library Hall. Fortunately, it was possible to transfer the meetings of all the organizations scheduled to use the Junior Library Hall to the Edith M. Fox Branch at 175

Reception following National Library Week Program of 1973

Massachusetts Avenue. This branch is heated by gas. Consequently, in addition to furnishing the Technical Services Department with more adequate working space, a considerable saving in oil should result as these new quarters will not be used during evening hours.

THE LIBRARY SCENE — NEW DIMENSIONS AND OLD

A full program of activities has been carried on during the year. The popular "Flicks for a Friday Evening," a family film program, included forty-seven showings. The five programs in the Robbins Library Concert Series presented musicians of note, and the thirteen week film series entitled "Civilisation" by Kenneth Clark created a great deal of attention and was well attended by adults. In addition to the regular children's progarms, preschool story hours and reading club activities, several puppet shows were presented by the Puppeteer Club which met on Tuesday afternoons in the Junior Library. An outstanding event was the National Library Week Program sponsored by the Friends of the Library and held at the Arlington High School auditorium in April with John Kenneth Galbraith as the guest speaker. Not to be forgotten was the tea and tour for the Japanese Youth group which was hosted by Arlington last summer.

The usual cooperation between Arlington public schools and the library continued. The classes of the Park West Satellite Program met at the Dallin Branch through June. The Supervisor of Children's Services directed the work of the eleven elementary school libraries; the library ordered, cataloged and processed the school-library books. Of concern to the library staff is the fact that only five of the schools have full-time librarians; the remaining six still have part-time librarians only. In October, one hundred teachers from the public and private high schools attended a tea given for them by the Young Adults Department in order to acquaint them with the resources, including films, phonorecords, art pictures, etc., which the library has to offer.

GRANT

Realizing the importance of preserving records of the town for future generations, the Robbins Library applied for and received a grant from the Council on the Arts and Humanities of the Commonwealth of Massachusetts for a project entitled "Arlington Town Life." The project will "enable the library to capture in photographs, tape recordings and written records the Town of Arlington as it is today and also show something of its continuity from yesterday."

PUBLIC WORKS

A cursory profile of Public Works in 1973 would reveal the wide diversification of activities engaged in by the department in its efforts to provide vital services to the town.

WATER SYSTEM

The town's water distribution system was maintained twenty-four hours a day throughout the year. The source of our water supply is the Metropolitan Water System Quabbin Reservoir.

The town's water distribution system is made up of three separate systems.

(1) ARLINGTON LOW SERVICE SYSTEM which is taken from a five foot M.D.C. main at Arlington Center to supply everything below Arlington Center at pressures of approximately eighty pounds.

(2) ARLINGTON HIGH SERVICE SYSTEM which is supplied from a twenty-inch main piped from the five-foot main at Arlington Center to the Metropolitan Pumping Station at Brattle Street, from which water is pumped to standpipes at Arlington Heights — Turkey Hill and Park Circle. There is also a connection to this five-foot main at Pleasant Street near Concord Turnpike and a twenty-inch supply main has been extended to the new M.D.C. pumping station on the Turnpike near Spring Street from which water is also pumped to the standpipe at Park Circle. These standpipes supply the rest of Arlington except that part from Highland Avenue to Pleasant Street on the southwesterly side of Massachusetts Avenue.

(3) ARLINGTON INTERMEDIATE SYSTEM — the area between Highland Avenue and Pleasant Street is supplied from an underground reservoir on Bellington Street at Arlington Heights.

In addition we have one hundred twenty-seven miles of underground water mains, six inches or more in diameter and approximately ninety-five miles of service pipes (service pipes are used from the water main in the street to the house), 1,369 fire hydrants, 3,223 gates, 12,500 water services, 12,500 service shut-off valves and other appurtenances which make up the town water distribution system.

During the year the Metropolitan District Commission announced its plans to increase its charges for water to the town by 66 2/3%. This is the first increase in twelve (12) years; it will jump the current rate of $120.00 per million gallons to $200.00. This will cost the town an additional $208,521.00 for water in 1974.

SEWERAGE SYSTEM

This system was also maintained throughout the year. Sewer mains were cleaned and flushed and particular attention was given to those areas where it is necessary to flush semi-annually. Our nine (9) sewer pump chambers were maintained and serviced in addition to two (2) storm drain chambers.

Service was rendered to those residents whose particular sewer connections had become clogged. This service is on a twenty-four hour basis and is obviously appreciated by our townspeople who pay a nominal charge for this service.

STORM DRAIN SYSTEM

This system was also maintained on a regular basis with periodic cleaning of mains and catch basins. Due to the topographical character of the town (over eighty-six (86) miles of hills), it is essential to keep our over 3,000 catch basins clean, especially during the seasons when there are large amounts of precipitation.

In the absence of a program for cleaning of catch basins, the efficiency of the storm drain system would decrease tremendously.

HIGHWAY ACTIVITIES

General housekeeping activities such as the periodic street sweeping, patching, and maintenance of streets and sidewalks continue throughout the year. During the year the department was engaged in such activities as street construction, street resurfacing, street armorcoating, street reconstruction; the maintenance of sidewalks and edgestones and construction of same; the maintenance and erection of street signs; the extensions of water, sewer and storm drain systems to mention only a few.

SUPERINTENDENT OF PUBLIC WORKS
Raymond A. Ouellette

SANITATION

The disposal of solid waste is still one of the most important public works problems confronting us today. Presently we have a short term solution but there seems to be no long range solution available at this writing. It seems that every city and town is waiting for the Commonwealth of Massachusetts and/or Federal Government to move in on this "crisis" situation, but thus far no solutions have been provided.

The impact of new laws — e.g. "An Act Relative to the Protection of Wetlands", "Regulations for the Control of Air Pollution" and others, though designated to protect the environment are contributing to this "crisis" situation and causing problems of a rather large magnitude for Public Works Officials who ultimately end up with the responsibility for the final disposition of solid waste.

LOOKING AHEAD

We look upon the year 1974 as a year which will reflect increased "cost of operations" for the Public Works Department due to the impact of many external factors and influences beyond our control.
Namely they are:

(1) The Energy Crisis and its associated increased cost of fuel and energy sources.

(2) The "Runaway Inflation" which is reflected in every aspect of our economy and the resulting higher cost for all materials used in Public Works activities.

(3) The Metropolitan District Commission water assessment increase of 66 2/3% which in turn will necessitate the town to increase its water rates in order for the water division to be selfsustaining.

(4) Disposal of Solid Waste — an expected substantial increase in the present contract for solid waste disposal at a private landfill outside of town. The new contract when it is negotiated will give us three (3) more years, but it is only a "stop gap" solution to our solid waste disposal problem.

However, despite these factors, we are confident that we can continue to provide municipal services that are sensitive to community standards with the continued support and participation of all the citizens of the town.

PLANNING and COMMUNITY DEVELOPMENT

Redevelopment Board

The Redevelopment Board is pleased to submit this report to the Town in accordance with the requirement of the General Laws and the Town By-Laws for the year ending December 31, 1973.

During 1973, the Board continued its planning and development program by adopting several elements of the Comprehensive Plan including the Housing Survey, the Population Study, and the Economics Report, prepared for it by the Department of Planning and Community Development. The Board authorized and completed a study with Peat, Marwick, Mitchell & Company for a study of the business community in Arlington, entitled "Economic and Market Analysis of the Potential for a Consolidated Business District". This study was publicly presented and well received by the community and the official family. Additional work was undertaken by Metcalf & Eddy, Incorporated, for the Board in the areas of community wide urban renewal, traffic and transportation. They also prepared fiscal analysis studies as a basis for a Capital Budget program.

During the Annual Town Meeting, Chairman Remmert presented its program and explained it in extensive detail. This program included a number of major zoning changes to the Zoning By-Law with the understanding that these were temporary and that the Board was beginning a program of a complete revision of the Zoning By-Law and the Zoning Map. The Town Meeting program also included proposed acquisition of land and funding for Magnolia-Thorndike Playground and acquisition of the Window on the Mystic Lakes. Town Meeting funded land acquisition at Magnolia-Thorndike and postponed action on the Window on the Mystic Lakes. The Board sought and received Town Meeting approval to conduct a Mill Brook Valley Hydrological Flood Plain Zoning Study to be done jointly with the Conservation Commission. The study was undertaken by Charles E. Maquire Associates of Waltham and at the end of the year, the work on the study was virtually completed. The results of this study will be available in early 1974.

During the year, the Board continued its work on studies of the Mill Brook Valley area by first proposing a Moratorium on all apartment house and industrial construction to Town Meeting. The Town Meeting approved the Moratorium, and the Board with the Department began its program of detailed studies that will result in a development plan and a progressive zoning for this area of the town. The Board is working with various other boards in the town to evolve a plan for the Mill Brook that will make the center of the community an attractive place to live and work, that should, over a decade or more, result in a broadening of the tax base.

In the area of redevelopment, the Board is continuing to work on the problems of the Reed's Brook Urban Renewal area on Summer Street near the Lexington line. After extensive difficulty in gaining access to the site, the Board, in October, was able to undertake detailed test borings and soil evaluations utilizing the consulting firm of Metcalf & Eddy. Their report indicates that it is feasible to develop the site and the Board will continue working with the urban renewal grant and with developers on developing the site with an attractive development program. Late in the year, the Board authorized the Department to prepare an Urban Renewal Application for a portion of Arlington Center, bounded by Mill Street, Summer Street, Mystic Street, and Massachusetts Avenue. This application will be filed with the Massachusetts Department of Community Affairs and, when funds are available, the Board will proceed with an urban renewal program.

The Redevelopment Board, in cooperation with the Town Manager, reviewed and approved a second 701 Application for funding for comprehensive planning and management studies and filed it with the Federal Department of Housing and Urban Development. This grant was approved by HUD and is the second grant that the town has received. The total grant was for $37,500, with the Town to provide $12,500. The Redevelopment Board will spend its portion of the grant on the Mill Brook Valley studies. During the year, the Board met with a number of

REDEVELOPMENT BOARD
Seated, left to right: Joseph F. Tulimieri, Stephen Pekich, George J. Remmers; Standing, left to right: Constantinos L. Phillips, Robert J. Sheehan

developers and reviewed the projects for apartment house and commercial developments. Because of the Moratorium, these developers were requested to wait, and in all cases but one, the developers complied. The Board worked with the Town Yard Site Selection Committee on the relocation of the Town Yard. The Board worked with the Housing Authority on the proposal to build a high-rise building in Drake Village.

The Board submitted an article to a Special Town Meeting to have Hutchinson Road designated as a scenic road to preserve the natural views and assets of the road in accordance with a new State Statute. This is one of the first scenic roads in the State.

It is with regret that the Board learned of the resignation of Mr. George Remmert, the first Chairman of the Redevelopment Board. During his term as Chairman for a period of two and one-half years, Mr. Remmert did an excellent job of establishing the goals and objectives of the Board and creating a credibility with the Town Meeting and other Boards with a conservative but progressive program. Due to the untiring efforts of Mr. Remmert, the Redevelopment Board's programs in planning and redevelopment were started off in the right direction. The Board also wishes to note with regret the resignation of its first Vice-Chairman, Reverend Thomas M. Kershaw, who also provided assistance in developing the Board's programs.

The Board wishes to publicly extend its best personal regards to both Mr. Remmert and Reverend Kershaw on behalf of the town.

Respectfully submitted,

Stephen Pekich, Chairman

Joseph F. Tulimieri, Vice-Chairman

Robert J. Sheehan

Constantinos L. Philips

George R. Remmert

Planning and Community Development Department

DIRECTOR OF PLANNING AND COMMUNITY DEVELOPMENT
Leo T. Young

Planning, development, inspection, and renewal continued to be the main functions of this department during 1973. The department is basically a research and development department oriented toward providing the research data, plans, programs, and inspection programs required by and necessary for the improvement and protection of the community. There were several major changes in the department during the year, including the transfer by the Town Manager of the inspection section to the Fire Department at the end of the year and the completion of a series of major inventory reports for the Comprehensive Plan.

The department continued its close liaison work with the Arlington Redevelopment Board to provide it with the studies, plans, and functions in the areas of urban renewal and planning.

In the area of urban renewal, the department, working with the Redevelopment Board, gained access to the Reed's Brook Project area and through the consulting firm of Metcalf & Eddy, obtained detailed borings and site data that permitted the consultants to determine that the area was feasibe for development. In the area of planning, the department completed a series of studies for housing, population, and economics that were subsequently adopted by the Redevelopment Board. The department also assisted the Redevelopment Board in a series of consultant studies by providing the work elements of the contracts for the Board and the staff review during work under the contracts.

For the Town Manager, the department completed and filed a second Comprehensive Planning Assistance Program Application and an application for the Federal Flood Insurance Program. Both of these applications were approved by the Department of Housing and Urban Development. Under the second 701 Grant, the department and the Redevelopment Board reserved funds for a portion of the Mill Brook Valley study that will be undertaken by the Redevelopment Board.

The department planning staff will work closely with the Redevelopment Board and the consultant to assure a competent professional study. The department will be drafting the town-wide zoning map and by-law and the recommendations from the Mill Brook Valley study will be incorporated into the overall zoning study program.

Also, for the Town Manager, the department prepared, completed and filed an application for the National Flood Insurance Program. The application has been approved by the Department of Housing and Urban Development, and Arlington residents are now eligible to purchase low-cost flood insurance to protect homes and property. In the future, HUD will establish a one-hundred year flood

level, and the town will be requested to adopt flood-plain zoning that will reflect the hundred-year storm. In the future, when storms like the 1938 hurricane or the 1954 or 1956 hurricanes strike the community, many residents should carry insurance that will protect them financially from flood damage.

During 1973, the Redevelopment Planner has continued to be assigned to work on problems of transportation with the Boston Transportation Planning Review, the Massachusetts Department of Public Works, and the M.B.T.A. working on problems of improvements to Route 2 and the Dewey-Almy Circle and working closely with various State and town officials on extension of the Red Line through Arlington to Route 128. The Director, at the request of the Town Manager, has been working with a new transportation group called the Joint Regional Transportation Committee. During the coming year, the department will be working with the consultants on the Mill Brook Valley to determine recommended station locations, parking facilities, and the use of air rights over a depressed or cut-and-cover rapid transit line.

The director and the planner attended almost every meeting of the Zoning Board of Appeals during the past year to represent the interests of the town on requests for variances and special permits. The staff provided technical information and photographs of the site of each application pending before the Zoning Board of Appeals. These meetings were held almost weekly by the Zoning Board of Appeals during 1973.

The Director met with a number of major businessmen and property owners in the town to discuss development potential. As a part of this development program by the department, extensive work was done on the Reed's Brook Project, work with the Mugar Group on the Route 2 site, and on development problems of Arlington Center and Massachusetts Avenue. Each proposal for development by private developers was reviewed and related to the Moratorium adopted by the Annual Town Meeting in 1973. This development program with private developers will continue in the coming year as it is a major opportunity for broadening of the tax base of the town in future years.

INSPECTION PROGRAM

During the year, the four major areas of inspection including building inspection, housing inspection, electrical inspection, and plumbing inspection were continued. In the area of housing inspection, over 2,500 dwelling units were inspected during the year and completion of inspection of apartment houses was concluded. During the latter half of 1973 and in 1974, systematic housing inspection will be conducted on one- and two-family houses to insure that they meet the minimum codes for housing. The housing inspection program is being well accepted by the public and there have been no refusals of admittance. In fact, the inspectors have been welcomed with open arms by both owners and tenants. The building inspector is beginning preparation for the state-wide building code that will go into effect in 1975. The state has adopted the BOCA Basic Building Code as a State Code just as the town adopted it in 1971. The building inspector also began working with the new Contractors' Licensing Board to implement the action of the Town Meeting in requiring the licensing of contractors for construction work. The electrical inspector continued normal inspection work of homes and buildings and, in addition, programmed the streetlighting program. This included relighting a number of major streets that had large lumen fixtures of the incandescent type by replacing them with modern mercury vapor lamps of an even larger lumen capacity. The plumbing inspector continued routine plumbing inspection work for the department, and his operation continues to operate smoothly with minimum problems with plumbers and property owners. As noted at the beginning of this report, effective on January 1, 1974, the inspection section composed of the above-listed inspectors and assistant inspectors was transferred to the Fire Department. This department supported the transfer as the inspection program of this department could be coordinated with the inspection program of the Fire Department. The combination of the inspection section in the Fire Department will provide all inspection services of housing and commercial buildings in one department.

During the coming year, the department will be directly involved in the Mill Brook Valley study program and will be developing the new Zoning By-Law and zoning map for the town. Staff problems arose with the resignation of the Planner and Redevelopment Planner. These people will be replaced early in the coming year, and work of the department will continue. Both the Planner and the Redevelopment Planner resigned to accept substantial positions in other communities.

The Department of Planning and Community Development wishes to express its appreciation for the cooperation, assistance and advice which it has received from the Town Manager, town officials, boards, and department heads, and will look forward to working with these groups during the coming year.

Respectfully submitted,

Leo T. Young

Director of Planning and

Community Development

Building Board of Appeals

There were no Building Board Hearings held during the year 1973.

Respectfully submitted

Daniel A. Healy, Jr., Chairman

Alfred A. Scott, Secretary

Alfred C. Bridgens

Zoning Board of Appeals

The number of cases heard by the Zoning Board of Appeals during 1973 was 38. A breakdown over the last several years is as follows:

1970	1971	1972	1973
103	54	49	38

The case load for the Arlington Zoing Board of Appeals is high considering that the Town is essentially fully developed. There are two basic and fundamental reasons for the large case load.

One, of course, relates directly to the cost of land and buildings, inflation, cost of land acquisition and land assembly. All of the foregoing factors interrelate with each other and simply stated, when a developer has to pay more for land, he wants to do more. When a homeowner outgrows his home, he will look to expansion rather than buying a bigger home.

The other factor relates directly to our Zoning by-law and our Zoning map. Plain and simple words best describe them. They are in terrible order. A by-law and map that were ideal for 1924 will cause consternation, confusion and chaos in 1974.

We have used our Annual Report to the Selecltmen in past years to urge immediate and decisive action to bring about a new, viable and effective zoning map and zoning by-law. We submit again that this action deserves the highest priority among our planning departments, boards and personnel.

There can be no meaningful development in Arlington when we have a by-law that simply does not address itself to the problems and concerns of the seventies. There can be no meaningful growth in Arlington when section after section of the by-law are vague, confusing and contradictory. There can be no meaningful increase in our tax base when the 1974 zoning map is practically identical to the 1924 map. There can be no meaningful ecological considerations when there is little that will relate to our ecology in the By-Law. There can be no meaningful planning in Arlington as long as our zoning map has essentially a 100 foot business depth along our main thoroughfares.

The time really has come for change and change must start with the Town Meeting and our Zoning By-Law and Zoning Map. Until change comes, our homeowners and developers will continue to come to the Zoning Board of Appeals for relief and the last thing we want is to assume the role of changing the By-Law and the Zoning Map by variance.

Respectfully submitted,

Richard Keshian, Chairman
John R. Kenny, Secretary
Francis DeRoche, member

F. Leo Fitzpatrick, alternate

Historical Commission

The Historical Commission will be four years old at the time of the 1974 Town Meeting. During 1973 it continued work in areas already established in its short existence and explored new areas of fulfiling its duty to the town.

Horace H. Homer retired as chairman of the commission in February, 1973 after serving in that post since the beginning of the commission's life. To Mr. Homer must be given credit for establishing a strong program for inviting interested people to become Associate Members of the commission — entitling them to speak freely at commission meetings and giving the commission the benefit of their ideas and talents. Since the commission is limited to seven members and it has no professional staff (aside from research assistants hired for short terms during the summer), the associate member program provides a welcome reservoir of energy to the commission. In many other ways as well, Mr. Homer created a sound foundation on which the commission can build its work.

The commission acts as a resource center and clearing house for historical activity in the town. During the past year it continued to accumulate books, maps, pictures and other items which are available to the commission and any citizens of the town interested in its history.

In a related event, the commission received almost two hundred nineteenth century cast iron toys from the Smithsonian Institute in Washington. The toys were part of the institute's Sears Roebuck collection and will remain in the town as long as they are adequately maintained, displayed and used. Most of the toys were displayed in December at the Fox Library. Others have been assembled to create an exhibit to tour Arlington's elementary schools. The Bishop School currently has the exhibit.

The historic Jarvis house on Pleasant Street is home to the commission, site of its meeting room and working office. An open house on March 18, 1973 made the building especially available to the public. Visitors at other times are always welcome.

Each summer research assistants have been hired by the commission to perform work especially requiring professional skills. Last summer John Herzan and Marianne Balazs continued an architectural survey of important historical buildings and areas in Arlington. Ninety-five forms detailing the results were sent to the Massachusetts Historical Commission, which in turn will use them in compiling a survey of Massachusetts for the federal government.

The same people gathered the essential data for an application to have placed on the National Register of Historic Places the block (excluding the telephone company property) bounded by Massachusetts Avenue and Academy, Maple and Pleasant Streets. The application has been completed by the Massachusetts Historical Commission and forwarded to Washington. The actual placing of the block on the Register will probably occur in the first half of 1974.

The commission has also worked to heighten the awareness of others in the town (including town officials) to the desirability of the preservation of historic buildings and areas. It sponsored, along with other town historical organizations, the designation by the Selectmen of the first week in May as Historic Preservation Week.

The commission also appeared twice in 1973 before the Zoning Board of Appeals, to express concern about the impact of proposals before it on historic areas in the town. One involved a proposed expansion of the telephone company building at the corner of Maple and Pleasant Streets; the other a sign of the Coolidge Bank and Trust Company overlooking the park in which the Uncle Sam statue will be raised.

The commission also established a channel of communication to the Redevelopment Board, meeting with it several times on a variety of matters. It supplied the board with a detailed list of historic structures in the Millbrook Valley area and noted its willingness to participate with the board in devising methods of preserving historic structures in any redevelopment scheme.

As the celebration of our nation's bicentennial approaches, the commission is preparing for increasing cooperation with the town's Bicentennial Planning Committee, hopeful that its work may be useful to them and that its resources, including the Jarvis house, may be utilized.

Thomas Smurzynski, Chairman
Daniel Hooley, Vice-Chairman
Horace Homer
John Harrison
Patricia Fitzmaurice
Laura Fabrizio
Gertrude Newton

PROPERTIES and NATURAL RESOURCES

Properties and Natural Resources

The Department of Properties and Natural Resources continued its programmed reorganization with the incorporation of cemetery operations as a division of the department. As now organized, the Department of Properties and Natural Resources has a Natural Resources division and a Properties division. The function of the department is to provide care for the Town properties including buildings and grounds, care and watch service on our environment, as well as assist all other departments to the best of our ability.

PROPERTIES DIVISION

This division is charged with the care and maintenance of all public buildings and school grounds. This includes forty buildings from Arlington High School to the bathhouse at the Reservoir Beach.

With close to 10,000 day students, 1400 night students, the Middlesex Community College along with extensive use of our public buildings by the Recreation Department, P.T.A., Boy Scouts and Girl Scouts, official and citizen committees this task is formidable. Most of our schools, the Town Hall as well as the meeting rooms at the Robbins and Fox Libraries are in constant use. The Town Hall auditorium was used 112 days in 1973 for both official, Town and private functions. The growing trend of night and off hour use of our buildings is welcomed, but it has caused the need for additional man hours and expenses to maintain these buildings.

Our buildings range from beautiful and timeless classic construction of the Robbins Library and Town Hall to the classless emergency construction of our temporary school buildings. Included in this range is the Jarvis House and Robbins House of historic value, our late 19th century schools, the modern schools such as the Thompson, Dallin and Stratton.

We have continued and expanded our renovation program for older school buildings. The Central and Crosby Schools were completely painted, lighting was improved throughout and sanitary facilities were renewed and remodeled.

Major roof repairs were made at the Central and Locke Schools, as well as contracts let for roof work at the Dallin School.

The fire protection and early warning system program was continued with work completed at the Bishop, Brackett and Dallin Schools as well as Mt. Pleasant Cemetery. We have also contracted for and the work is partially completed in the Stratton School, Town Hall, Jarvis House, Dallin Library, Robbins Library, Robbins House and Robbins Cottage. We will also install a fire protection system in the School Administration building at 23 Maple Street. Our program to counteract the glass breakage and window sash damage situation continued. Replacement of wooden window sashes with aluminum sash glazed with unbreakable polycarbonate was completed at the Peirce School. We also protected large areas of glass block and wooden sash glazed with glass at the Bishop and Brackett Schools.

Where possible, all broken windows are replaced with unbreakable polycarbonate. This is a long tedious and initially costly program. In the long run, however, it will save money in both labor and materials as well as reduce fuel costs.

Exterior lighting improvements were continued at various schools and playgrounds. This program is necessary, even in the face of the energy crisis, to protect our buildings and properties

Our maintenance staff performed work for all departments with extensive painting at the Robbins Library, Jarvis House and Town Hall.

It must be remembered that as maintenance responsibilities imply, much of our work is straight maintenance, the vast percentage of our work involves such work as plumbing, heating, electric, roof, carpentry, furniture and equipment repairs throughout our buildings.

Included in our work is probably one of the most difficult and demanding day to day maintenance tasks; namely, custodial duties. The custodial staff must perform daily housekeeping duties of a repetitive nature, communicate with many people and perform special tasks as needed. They receive little recognition for their most important duties.

In the second half of 1973, we were hit with the unprecedented and alarming increase in fuel costs. Prices more than doubled and fuel allocation was cut to 80% of 1972 deliveries. To meet this crisis economy procedures were instigated in all public buildings. Thermostats were lowered to 68° days and 60° nights, areas were shut off and school vacations lengthened. This, along with warmer than average temperatures, allowed us to reduce fuel consumption close to 20%

The cost and availability of fuel will have a serious affect on our building operations in the future.

NATURAL RESOURCES DIVISION

This division cares for our parks, trees, floral islands, town gardens and cemeteries.

Our park and playground system was utilized for organized sport as well as neighborhood use. We provide service such as marking and maintenance for over 28 areas used by all school teams in varsity, junior varsity, Junior High and Elementary programs in baseball, football, soccer, tennis, field hockey, softball, track and others; as well as Arlington Catholic baseball, American Legion baseball, an expanded Little League program, softball for sixteen men's and eight women's teams. We provide service for two Pop Warner football leagues along with an adult tag football program and the summer Recreation Division playground program. Of course, one of our most important and difficult jobs is providing daily maintenance to all areas for neighborhood use.

Recognizing the need for improved facilities, the Town Meeting approved a plan proposed by the Recreation Facilities Committee and implemented the first year and one-half's work at Summer St., Crosby, Parmenter, Hardy, Locke and Peirce Schools. This work will begin in the Spring of 1974.

We continue to receive high and multiple use for our facilities; this is excellent. An off-shoot of the use factor is the difficulty in maintaining an adequate turf or playing surface particularly when the area is used for baseball, football, soccer and field hockey. To maintain an adequate playing surface major seeding, fertilizing, sodding and rebuilding of infields was performed at W. A. Peirce Field, No. Union, Linwood, Robbins Farm, Spy Pond Field, Buzzell Field and the Reservoir. If we are to retain the turf playing surfaces of our playfields, cultural practices of seeding, fertilizing, sodding and disease control must be expanded in relation to use.

We planted and maintained the twenty-two floral islands this year. To this we were pleased to add the Veterans Memorial completed this year. Basketball and tennis courts were cared for at various playgrounds. We will upgrade these facilities under the recreation facilities program in the next several years.

The Arlington Reservoir Beach was maintained for swimming. The water was tested and treated as necessary. The long-range problems of flood control and water quality must be faced at this location.

Skating areas were maintained at Robbins Farm, North Union, Waldo Road, Parallel Street, Grove Street and Hills Pond. Asphalt basketball and tennis areas received multiple use at all skating areas excluding Hills Pond. Cooke's Hollow conservation park was expanded. It is now completed from Mystic Street to the "Flume". I would like to congratulate the Conservation Commission, Garden Club and all concerned with this project. The initial part of Cooke's Hollow received an award as one of the top projects in the country.

We would like to upgrade the quality and standard of maintenance in our small parks and tot lots. In 1973 we painted equipment, installed some rebuilt equipment, and started preliminary work on major renovations. We must, however, increase our maintenance staff if we are to meet the requirements of an expanded and improved system. We are hard pressed in this area where the bulk of abuse, misuse, and direct vandalism takes place.

During the year several professional studies on open space, management and recreation needs were carried out; they all mention the need for increased maintenance staff.

We faced a difficult year in regards to our street trees. We are sad to say we lost a record number of trees along our roadways. 281 were lost with 148 of the total being large, mature trees. Sugar Maple Decline cost us 67 large trees, followed by D. E. D. — 28, Verticillium Wilt — 22, with the remainder lost to storm damage, root disease, environmental difficulties, physical damage etc. A major loss was the death of a large Elm tree to D. E. D. at the Town Gardens. Another major factor affecting our removal program is disposal. Due to unavailability of land and air pollution requirements, we must dispose of our diseased logs out of Town; this has caused a major increase in cost of operations. To counter the loss of these trees, we continued our positive planting program. 462 trees were purchased this year including 258 planted on streets, 100 nursery trees with the remainder for parks, schools and business districts. Due to supply problems, 50 large trees arrived late in December. These will be planted next Spring.

As usual, we purchased diversified species to suit various environmental site problems as well as to provide variety in our planting. Various species including Maples, Locust, Plane trees, Linden, Crabapple and Cherry were planted. A large Red Maple was planted at the Town Garden to replace the Elm tree lost at this location. We also transplanted one large Pink Dogwood, donated by Symmes Hospital, and a large Spruce tree, to the Town Garden. As part of our Arbor Day program we passed out 500 Blue Spruce trees at various elementary schools. This program has been most rewarding.

To protect our trees and the people of the Town, we continued our policy of spraying trees only when absolutely necessary with material of low toxicity and short residual life. We also sprayed weed killer to control poison ivy and other toxic weeds.

As part of our disease control program, we treated several large Elm trees with a new antibiotic to control D. E. D. This program is in the experimental stage and will take time to evaluate.

The Town Garden, Mystic St. Park and Cooke's Hollow conservation area were maintained. These quiet, attractive locations provide an excellent, passive recreation service sorely needed in today's world.

During the year I had the opportunity to work with various committees and citizens groups such as the Spy Pond Committee, Conservation Commission, Recreation Facilities Committee and others. I would thank these groups for their advice and co-operation throughout the year.
In conclusion, I would like to thank the members of your Department, the employees of the Department of Properties & Natural Resources and all the Departments of the Town who have been so willing with advice and assistance in this past year.

Very Truly Yours,

FRANK P. WRIGHT

Director of Properties
and Natural Resources

Cemetery Commission

The Cemetery Commissioners herewith submit their Annual Report for the year ending December 31, 1973.
Mr. John R. Keefe was reappointed in December for a three year period.

The Cemetery Department provided for the care and operation of the 51 acre Mount Pleasant Cemetery as well as the Old Burying Ground on Pleasant Street throughout the year.

With the practical impossibility of expansion into the Meadowbrook area, due to it being a wetland, the Commissioners have been forced to change their long range plan for cemetery expansion.

The burial needs of the town with presently surveyed land, for this purpose, will last only six and one half ($6^1/_2$) years.

Projection of unsurveyed grave sites, such as, paths, roads, the removal of the house and garage at 39 Sachem Avenue, and recently filled in land in new section of cemetery will supply purchase of burial lots for at least ten years more but no more than fifteen years.

These figures are based on the continuation of the present policy of not selling graves for future use.

A study was carried out as to how to meet future needs within the existing cemetery. Options including elimination of roadways, flower beds, construction of a mausoleum and procuring of land at other locations were mentioned. After studying all facts in the situation, the Commissioners moved to convert pathways and various roadways into burial plots in future years as well as an updating of burial requirements and fees to assure burial for town residents in the future.

Due to inflation and high cost of operating expenses, the Cemetery Commissioners voted to raise the fees in 1973.

The Commissioners were saddened by the retirement of Edward Preston, Cemetery Superintendent, an employee of the Town for over 40 years. Mr. Preston who carried on his duties above and beyond the norm will be sorely missed. The Commissioners wish Mr. Preston (Ed) a long and happy retirement.

During the year approximately one acre of additional burial space was added to the cemetery. This includes 35,000 sq. ft. on the west side of Mill Brook and land gained by elimination of pathways, flower beds etc.
We continued to be plagued by vandalism and attempted arson during the year. To correct and counteract this problem, all windows were covered with lexan and an intrusion alarm as well as a fire detection alarm system was installed in the chapel and garage. We also installed outside lighting.

The "Old Burying Ground" on Pleasant Street was maintained during the year. Several overgrown shrub beds were eliminated, unused roadways were converted to lawns, a gateway was made to connect the Town Gardens to the Burying Ground and exterior floodlighting was installed. This historic cemetery has much to teach us, we should be aware of our history. It is hoped funds will be available to continue improvements.

There were 398 interments in 1973 in Mt. Pleasant Cemetery.

The deaths of Domenico Aprile and Dominic Lionetta are greatly felt by the Cemetery Department. The loss of these men who were dedicated and loyal employees will leave us hard pressed to find replacements.

The recent death of former Cemetery Commissioner John H. Callahan is deeply regretted by this department.
We thank Town Manager Donald R. Marquis and all Department Heads for their help and co-operation during the year.

The following are the receipts for 1973:

Sale of Lots and Graves	$12,715.00
Foundations	4,748.75
Opening Graves	27,067.50
Miscellaneous	2,913.00
Annual Care	2,224.80
Perpetual Care	13,412.50
Income from Funds	53,699.14

Daniel M. Hooley

John R. Keefe

Franklin W. Hurd

Commissioners,
Cemetery Dept.

Conservation Commission

The Conservation Commission had a year of varied activities emphasizing concern for the preservation of Arlington's limited natural resources.

The 1973 Town Meeting authorized a Hydrological and Flood Plain Study of the Mill Brook Valley from the Lexington Line to the Mystic Lakes to be done jointly by the Redevelopment Board and the Conservation Commission. The firm of C. E. Maguire Inc. was hired to do this study and it is anticipated that this study will be completed in February, 1974.

The Town of Arlington received $5,000 from the Ford Foundation for a matching fund grant for a study of the Town's open space requirements passed by the 1972 Town Meeting. This was completed during the Year 1972. This grant resulted from an application filed by the Conservation Commission with the Ford Foundation.

During the year a great deal of time and effort was spent on the Cooke's Hollow Project. On May 24, 1973 a Hatch Act Hearing was held on the Cooke's Hollow Project in accordance with the Wetlands Protection Act, Chapter 131 — Section 40, to perform erosion control on the banks of the Mill Brook abutting the Cooke's Hollow Project.

The Cooke's Hollow Project received national recognition when the Arlington Garden Club received $750 for winning fourth place National Award over 8,000 entries in the Environmental Improvement Program sponsored by Sears, Roebuck and Company and the National Council of State Garden Clubs. In addition to the National Award, the Arlington Garden Club won $75 in District competition and $200 from the State competition for the Cooke's Hollow Project.

A sign was installed at Cooke's Hollow. The sign is made of teak wood donated by the Old Schwamb Mill Trustees. Mrs. John A. Fitzmaurice designed the lettering and the sign was hand-carved by Mr. William P. Reimann.

The Commission awarded a contract to Frost and Higgins for completing the Phase II Landscaping for Cooke's Hollow Project. The work is essentially completed and the planting of trees and other plant materials will be completed in the spring of 1974.

The Conservation Commission acknowledges a gift of $3,000 from the Arlington Garden Club and also a gift of land to the Cooke's Hollow Project from Mr. John Mirak.

In October, 1973, the Commission returned $900 to the General Fund of the Town covering the purchase of the land on Forest Street which was authorized by the 1972 Town Meeting — Article No. 78. A sign has been posted on this land identifying this land as a Conservation Area. During the year the Commission met with the Arlington Housing Authority, Board of Selectmen, Town Manager, Redevelopment Board, Permanent Building Committee, Department of Planning and Community Development, Department of Properties and Natural Resources, Town Engineer, and other Boards, Commissions, and Organizations. We acknowledge their assistance which has been substantial and constructive and look forward to their continued support in the future.

The Commission expresses its appreciation to the Arlington Conservation Commission Associate Members, the Arlington Garden Club, and the Arlington Conservation Association Members for their continued support to the Conservation Commission.

Two members of the Commission resigned during the year — Messrs. George D. Buckley and Thomas Dickinson. We express our gratitude to Mr. Buckley and Mr. Dickinson for their time and expertise furnished during their association with the Conservation Commission.

Respectfully submitted,

Robert R. Bryant, Chairman
Peter Braun
Elsie C. Fiore
Dora Reingold
David D. Wallace
Eric Verrill

PUBLIC SAFETY

Fire Department

As Chief of the Arlington Fire Department I submit my fifth Annual Report for the year ending December 31, 1973.

The uniformed force consists of 121 men: the Chief of Department, 6 Deputy Chiefs, 9 Captains, 20 Lieutenants and 85 Firefighters and 2 Chaplains. The Department has a Master Mechanic, Doward A. Barter; a Fire Apparatus Repairman, Richard Lavalle; a Principal Clerk and Typist, Margaret Harrington and a Senior Clerk and Typist, Eileen Provenzano. Deputy Chief Charles F. Mahoney is in charge of personnel.

The Reverend Doctor Joseph R. Sweeny of the First Baptist Church of Arlington and the Reverend Henry M. Cunney of Saint Agnes Church were appointed as the Protestant and Catholic Chaplains, respectively, on November 18, 1973.

The Fire, Police and Civil Defense Communications System is maintained by Nicholas J. Bucciero, Assistant Superintendent; Leo Canniff, Signal Maintainer with Dorothy Hannaford as Clerk and Typist.

1973 Maxim
Newest Pumping Unit
1250 gallons per minute
Engine 4 located at Fire Headquarters

SEPARATIONS

	Appointed	Retired
Lieutenant Charles O. Toomey	Feb-uary 27, 1949	December 15, 1973
Firefighter James O. Corbett	March 6, 1955	September 7, 1973
Firefighter Daniel J. O'Brien	December 2, 1946	December 31, 1973
Mary T. Munroe, Clerk and Typist	January 8, 1973	September 24, 1973 (transferred)

APPOINTMENTS

Firefighter Ronald Mullane returned from military service having served from February 23, 1972 through September 23, 1973

John Ferrante, 143 Ridge Street, military substitute for Ronald Mullane, appointed April 22, 1973; appointed permanent Firefighter replacement for James O. Corbett on November 12, 1973

Andrew Antonucci, 23 Russell Terrace appointed temporary Firefighter on May 20, 1973 for Joseph E. Burke on Authorized Leave without pay from March 26, 1973 until December 31, 1973.

PROMOTIONS

October 28, 1973 Warren R. French from Captain to Deputy Chief in charge of Fire Prevention & Civil Defense

APPARATUS REPAIRS

The Town Meeting of 1973 appropriated $9500 to refurbish Engine 4 (1954 Mack). The Fire Department Master Mechanic and his assistant completely overhauled the pump, main engine, braking system and completely rewired the electrical system to upgrade this piece of equipment. Extensive body and cabinet work and a complete paint job was done by an outside contractor. Engine 4 was taken out of service on September 14, 1973 and placed back in service on November 16, 1973 and redesignated as Engine 3 at Park Circle Station.

NEW APPARATUS

The Annual Town Meeting of 1972 appropriated $50,000 for the replacement of Engine 2, a 1952 1000 g.p.m. pumping unit. The Maxim Company of Middleboro, Massachusetts was awarded the contract to build a 1250 gallon pumper. The pump was delivered to the department on May 1, 1973 and put into service on May 11, 1973. A factory representative was here for five days with Department Master Mechanic and the Training Officer for testing, drilling in pump evolutions and acceptance test. This pumping unit contains the built-in capability of producing mechanical and high expansion foams through its main pump.

REPAIRS TO FIRE STATIONS

The Annual Town Meeting of 1973 appropriated funds to repoint and waterproof the exteriors of the three fire stations. The exterior tirm on all three stations was also repainted this year.

The main heating boiler (50 years old) at the Highland Station developed serious cracks and the attempted repairs were not successful. New sections were not available due to the age of the boiler. A request for an emergency transfer of funds to replace the boiler was submitted to the Finance Committee and approved.

All three stations were built in the 1920's and require a great deal of maintenance to prevent major deterioration both inside and outside. It is recommended that maintenance be constantly kept up.

TRAINING

Rapid and constant technological advances in almost every area of our lives requires an equally rapid advance in the area of fire fighting and fire prevention. To this end we are continuously striving to keep this department abreast of all such developments.

A number of men from this department are availing themselves of the Fire Science courses at Massachusetts Bay Community College in Watertown and Bunker Hill Community College in Charlestown to further their education. Our In-Service department training program is constantly being evaluated and upgraded for modern techniques. Captain James Kelly is the department Training Officer in charge of this program.

Four (4) firefighters attended a six-week Recruit Training Course at the Massachusetts State Firefighting Academy at Stow, Massachusetts.

Three officers and one firefighter attended a four-day seminar at Harvard College conducted by the American Academy of Orthopaedic Surgeons on extradition of persons from vehicles involved in accidents and the emergency care and transportation of the sick and injured.

Through the courtesy of Chief Charles Arena of Logan Airport, training facilities were made available to this department. Assistant Chief Catrone and Department Training Officer Captain James Kelly instructed the men on uses of mechanical foam and high expansion under actual fire conditions.

The annual six-week outdoor training program on pump evolutions was held in the Spring at Spy Pond Field under the direction of the Department Training Officer.

Annually a six-week program on ladder evolutions is conducted at the Highland Fire Station by the Training Officer.

The Emergency Medical Services Act of 1973 requires that the operator and ambulance attendant complete a basic eighty-one (81) hour course in emergency care and transportation and successfully pass the National Registry Examination. The Emergency Medical Technician Course will be a continuous training program to maintain a constant level of care in providing this vital service to the citizens of this community. At present one Lieutenant and

three Firefighters are attending the EMT-Basic course (81 hours) being sponsored jointly by Massachusetts Bay Community College and the Mount Auburn Hospital.

CIVIL DEFENSE

This division of the Fire Department continues to operate under Public Law 85-606. This is the program which reimburses the town one-half of the cost of personal services for employees involved in Civil Defense. Arlington continues to be certified by the State and Federal government as an eligible participant. In 1973 approximately $3000. was turned over to the Town Treasurer as a result of these payments.

The local government radio system is supervised and maintained by this division.

Deputy Chief Irving Proctor is the coordinator between the Fire Department and the Auxiliary Fire Fighters.

Captain Lawrence Flynn is the coordinator between the Police Department and Auxiliary Police officers.

Deputy Chief Warren R. French is the Civil Defense Director.

Two valuable members of the Arlington Auxiliary Fire Department during World War II and subsequent years passed away this year:

Malcolm Griffin, Former Chief Auxiliary Fire Department December 10, 1973

Ralph Kinney, Deputy Chief and Clerk, June 19, 1973
Civil Defense has been involved constantly since September 19, 1973 in the energy crisis at both State and local levels.

FIRE PREVENTION

The mercantile in-service inspection program that was instituted in 1972 is now a continuing program coordinated by Deputy Chief Warren R. French. Four engine companies were on in-service inspection duty daily Monday through Friday.

The principal value of this inspection work is the knowledge obtained of the various structural features of the building, number and locations of means of ingress and egress, protective facilities (standpipes — sprinkler systems), contents of material stored and its potential fire dangers, proper methods of extinguishment of same along with the correction of existing unsatisfactory conditions.

Diagrams and notes were correlated and put on master file cards to be used for follow-up inspections and training. The information was incorporated into the training lesson manual and discussed at length by all officers and fire fighters. Through such an inspection definite pre-plans for effective fighting of fire can be laid out and studied by all members of the department due on the first alarm. The claim has been made that most of the loss of life and injury to fire fighters would have been prevented by inspection work of this kind.

Semi-annual inspections were made of all town-owned buildings in conjunction with the insurance program by the Deputy Chiefs. Officers and firefighters made periodic inspections of places of business, public buildings, schools, hospital, convalescent homes and places of assembly. Records of existing conditions, with the date of correction, were kept.

Deputy Chief Warren R. French, Fire Prevention Officer, inspected oil-burning equipment in addition to flammable installations and storage equipment. He, also, supervised the annual in-service hydrant testing programs.

CHELSEA CONFLAGRATION

Sunday, October 15, 1973 was called by the Forestry Service a Class 5 day, very dangerous — high winds (40 m.p.h) and dry conditions At approximately 4:00 p.m. a truck fire was reported and a box alarm was sounded. In a matter of minutes this fire had reached such a magnitude that it was a major conflagration.

The Master Mutual Aid plan was immediately set in motion by District 13 radio network which encompasses 23 cities and towns.

Arlington Fire Department sent four pieces of apparatus: Engine 2, Engine 4, Ladder 2 and Rescue 1. Engines 2 and 4 pumped for fifteen hours supplying water for heavy stream appliances, ladder pipes and ground appliances. Rescue 1 responded to assist in the possible evacuation of patients from Chelsea Naval Hospital and the Chelsea Soldiers Home.

All equipment returned on Monday, October 16, 1973 at 8:15 a.m.

FIRE FIGHTER OF THE YEAR AWARD

The Arlington Kiwanis Club presented an award to the Arlington Fire Department Rescue Squad for meritorius service during the year of 1972. The following men who served in this unit during the calendar year 1972 were named as recipients:

Lieutenant Clyde Coscia	Firefighter Thomas Dean
Lieutenant Clifford Fallis	Firefighter Thomas Fjeld
Lieutenant Edward Reardon	Firefighter Brian Higgins
Lieutenant Charles Toomey	Firefighter Leonard LaRue
Firefighter Ulick Burke	Firefighter Timothy Murphy
Firefighter Leonard Cassidy	Firefighter Joel Seully

RECOMMENDATIONS

As we approach the mid-seventies, I am still concerned about the future of the fire protection for our citizens. The total number of emergency responses is on a constant rise. During my first year as Chief of Department in 1969 the total number of emergency responses was 1409, as compared to the total number of responses during the recently completed calendar year 1973 of 2838 responses. This part of our work load has more than doubled over the past five years. There is no reason not to believe that these figures will continue to climb. There has not been an increase in department manpower since 1968, a period of six years.

This one segment of our work load has and is continuing to take its toll on our older apparatus and, therefore I am recommending to the 1974 Annual Town Meeting the purchase of a 100 foot aerial ladder to replace the 1952 (22 years) 65 foot junior aerial ladder at Highland Station. This replacement is in accordance with our long term planned replacement program for major equipment.

This report of necessity must continue to recommend adequate training grounds with a drill tower, along with an Officers College. Serious consideration must be given to providing new and adequate facilities for our maintenance and signal divisions. They both have long since outgrown their original allocated areas.

CONCLUSION

To the members of the Board of Selectmen and to the Town Manager, Donald R. Marquis, I extend our appreciation for their genuine interest and cooperation with the Fire Department throughout the year.

To all other Town Officials and Departments I extend our gratitude for their valuable advice and assistance throughout the past year.

To our new Department Chaplains, on behalf of the officers and men, I wish to extend our sincerest thanks for joining us at the sacrifice of many valuable hours of their own time.

To my officers and men I extend my thanks for the loyal and efficient manner in which they have performed their many and varied duties in the continuous defense of life and property.

Robert C. Blomquist

Chief of Department

Department of Police

ARLINGTON RECEIVES AAA NATIONAL AWARD — A special national safety award plaque was awarded to Arlington (Dec. 4) in recognition of its low pedestrian fatality and injury rate. The town had only one pedestrian death in 1972, a good record for a community of more than 50,000 population. LEFT TO RIGHT: Kenneth A. Cameron, School Safety Director; Richard W. Hoover, Safety Director for AAA's Mass. Division; Town Manager Donald R. Marquis; Chief of Police Fred A. Lucarelli, and Lt. Arthur G. Guarente, Safety Officer.

I herewith submit my seventh annual report for the year ending December 31, 1973.

As of December 31, 1973, the department had 85 police officers, the normal complement is 89 officers, including all grades, which is a ratio of one and sixty-five hundreths (1.65) per thousand based on a total population of 54,000. I wish to publicly acknowledge my sincere gratitude and to commend the members of the Auxiliary Police for their unselfish devotion through their various activities in the past year.

I extend my sincere appreciation to the Honorable Board of Selectmen, to the Town Manager, Donald R. Marquis, to the members of the Police Department, and to all Heads and Personnel of other Town agencies for their cooperation and support during the past year.

Respectfully submitted,

Ferdinand A. Lucarelli

Chief of Police

ANNUAL REPORT OF THE ARLINGTON POLICE DEPARTMENT

OUR AIM IS TO SERVE YOU

The department protects the right of all persons within its jurisdiction to be free from criminal attack, to be secure in their possessions and to live in peace.

The department serves the people of Arlington by performing the law enforcement function in a professional manner, and it is to these people that the department is ultimately responsible. Equally important is the obligation and desire of the department to continue its work in the prevention of crime.

PUBLIC SERVICE

When crime occurs every citizen expects order to be restored and the cause of the crime to be eliminated. These tasks are most effectively accomplished when the police and other supportive agencies are given the public cooperation which is absolutely essential. That cooperation may simply be to leave an area of disruption so that the police may quickly restore order. Cooperation in the elimination of crime may be to refrain from support of illegal activities, such as illegal gaming, etc.

The public must accept its burden of responsibility to make our criminal justice system effective. The daily work of law enforcement officers ultimately depends upon a joint effort from the public and the police officer.

Police officers today are challenged to balance individual liberties with the need for order. This challenge is magnified by increasing crime and disorder.

The professional law officer readily accepts the constitutional safeguards granted suspected citizens in criminal investigations. Above his likes and dislikes the peace officer is guided by an unwaivering respect for all our laws.

The police officer's duty is to apply the full intensity of his will toward enforcing our laws and at the same time assure an individual who breaks the law, that his rights under our constitution will not be trampled upon. A professional police officer realizes that if he does not proceed along these lines he will lose the case in court on techni-

calities involving the defendant's rights, regardless of the fact that he may have sufficient evidence to convict him.

HOME PROTECTION SERVICE

As part of our patrol service we conduct home protection by frequent checking all homes where the owners are away and have notified us to that effect.

JUVENILE DIVISION

Our juvenile division is staffed by able and competent officers who investigate, evaluate, and process complaints and offenses in which juveniles are involved. They investigate domestic problems wherein child neglect situations occur, and make referrals to various social agencies covering the subject matter.

DETECTIVE DIVISION

Our detective division conducts follow-up investigations initiated by the uniform division and which are of an extended nature. They handle all serious crimes committed within the community. They maintain up-to-date records of all known law breakers and furnish such data to the patrol division. They also coordinate police activities with other police agencies and the courts.

RECORD BUREAU

Records are maintained by the department in compliance with statutes as a public service, as an investigative and administrative aid and to provide statistical data. Department records are confidential except to other police departments, or other qualified public agencies. The department will provide, for a fee, crime and traffic accident reports and photographs to crime victims and parties involved in traffic accidents.

TRAFFIC ENFORCEMENT AND MAINTENANCE DIVISION

This bureau's personnel assist in making traffic studies, preparing traffic counts to provide the smoothest and safest traffic flow and conduct radar patrol in an effort to lower the number of automobile accidents in the Town. To facilitate the safe and expeditious movement of traffic the department must enforce traffic laws, investigate traffic accidents and direct traffic. To enforce compliance with traffic laws and to develop driver awareness of the causes of traffic accidents the department appropriately warns, cites or arrests traffic law violators.

Traffic accidents are investigated to protect the rights of the involved parties, to care for the injured, to determine the cause of the accident so that methods of prevention may be developed and to gather necessary evidence to prosecute the violator.

ENFORCEMENT OF NARCOTIC DRUG LAWS

It is the objective of the department to enforce all Federal and State statutes which prohibit the possession, use, or traffic in narcotics, non-prescription drugs and other controlled substances. Through a combination of aggressive enforcement and public education, the department seeks to prevent and deter the use and possession of such drugs or other controlled substances.

In the year 1973, there were 35 drug-related arrests made, as opposed to 57 in 1972. Of the 35 arrested, 3 were females and 13 were non-residents. None of the arrests involved heroin.

In 1973, there were 3 holdups committed in drugstores in Arlington; this was a decrease of 4 in comparison with 7 holdups in 1972. Drugstore holdups, which have increased greatly nation-wide, serve two purposes: to provide persons committing same with narcotics, barbiturates and amphetamines, either for their own use or to sell to dealers when the supply in the streets is short, and to provide addicts with money to purchase drugs.

ON THE JOB TRAINING

An officer's training continues after his initial eight weeks' training following his appointment and before being assigned to street patrol. This department has an In-Service Training Program which began one year prior to the Commonwealth of Massachusetts enacting legislation which makes it compulsory for all police departments to conduct in-service training for their personnel yearly.

NEW COMBINATION PATROL WAGON AND AMBULANCE
Purchased in 1973
Used to give back up service to RESCUE #1
Officer A. Cappella shown inspecting the vehicle.

Subjects discussed at the 1973 In-Service Training Program classes were:

COMMUNITY RELATIONS — Guest speaker: Sergeant Bolt of the Greater Boston Police Community Relations Bureau.

ACCIDENT REPORTS AND ACCIDENT INVESTIGATIONS — Guest speakers: Registry Inspector Joseph Marzilli and Lieutenant James Doherty of this department.

GRAND JURY AND SUPERIOR COURT PROCEDURES — Guest Speaker: Former Governor of the Commonwealth, The Honorable Foster Furcolo.

DISTRICT COURT PROCEDURES AND MANNER OF GIVING TESTIMONY — Guest Speaker: Anthony Robert Burns, 1st Assistant Clerk of Courts of Middlesex Third District Court.

DEMONSTRATION IN CARDIAC RESUSCITATION — Guest speaker: Captain Edward Silva, Lexington Fire Department.

DEFENSIVE DRIVING — Guest speaker: Mr. Peter Kopanon, Supervisor of Services, Registry of Motor Vehicles.

CARDIAC RESUSCITATION AND RELATED SUBJECTS — Guest speakers: Dr. Donald Dressler and Dr. James Gibbons, both of Arlington.

In addition to speakers, film was shown on each of the subjects spoken on.

All of our sergeants attended six lectures on leadership and related subjects which were presented by Mr. Robert Daniels, M.S.W. and Mrs. Patsy Kramer, M.S.W.

POLICE INTERNSHIP PROGRAM

In cooperation with Mr. William McCarthy, Flexible School Coordinator in the Arlington school system, a

Students Teresa Zarba and Pauline Anargirou receiving instructions in the keeping of records by Mrs. Shwab of the Bureau of Records. Lorna Zwicker was not present at time picture was taken

program was initiated in 1973 by Captain Henry Bradley of this department, to interest High School students in law enforcement. The students enrolled in this police program are: Thomas Frabrier, Stephen LaBriola, Thomas Tarchia, Thomas Kelly, Mark Aubin, Thomas Vincent, Jr., Teresa Zarba, Pauline Anargirou and Lorna Zwicker. The boys were assigned to Officer Steele for Traffic Enforcement and Community Relations Officer, Robert White, on Court procedure, Court demeanor and particularly juvenile aspects of the courts. The girls are assigned to the Record Room.

Police Internship Program

Students being instructed on the use of the Radar machine in traffic enforcement. Left to Right: T. Frabier, S. LaBroiola, T. Tarchia, T. Kelly, M. Aubin, T. Vincent, Jr., Officer J. Steele

If the program develops and there are more students who show interest, instead of week days for an hour and half in the morning and afternoon, Monday through Friday, we will open up the guard room to lecture classes in law enforcement plus actual experience working in non-sensitive areas of the police department.

PARTICIPATION IN LAW ENFORCEMENT COURSES

At present, about 60 percent of our department is enrolled in law enforcement related subjects towards earning Associate Degrees in Law Enforcement at Northeastern University and several Community colleges. Captain Lawrence Flynn, Lieutenant John Carroll, Lieutenant Harry Ryerson, Jr. and Detective Genovino Schiavo all earned Associate Degrees in Law Enforcement this year.

Members of our detective division have completed courses in Crime Scene Search, Narcotic Drugs, Electronics Surveillance in Organized Crime and courses on photography as applied to criminal investigation. Our firearm instructor, Sgt. Robert Learnard, attends a yearly refresher course sponsored by the F.B.I. All members of the department must qualify, at least once a year, in the use and handling of all protective equipment maintained by the department.

BURGLARY — PREVENTION

The department has a program known as OPERATION IDENTIFICATION to discourage burglars. It is designed to discourage thefts and burglaries by uniform identification of valuables and showing potential thieves that property has been marked for identification and can be traced. The department has engraving tools available to loan to the people of Arlington for engraving Social

Security number and/or license number on their valuables, such as radios, TV sets, cameras, typewriters, etc. The person will list items marked on duplicate forms provided by the department, one for the department and one for his own use. On returning the tool, two stickers will be given to the person to be placed on doors or windows of residence, notifying all, that valuables have been marked. The tools are available in the Record Room from 8:00 A.M. to 4.00 P.M., seven days a week. If all tools are out, the person who calls will be put on a waiting list and notified when the machine is available. We trust this program will be of value to the residents of Arlington.

SAFETY OFFICER

One of his duties is supervising the School Safety Program. He has charge of 24 school crossing supervisors and 300 patrol leaders. The patrol leaders are lectured on the fundamentals of pedestrian safety. He has established a working liaison between the police, the supervisors, the patrol leaders and the schools for the benefit of all students in the town of Arlington.

SAFETY PROGRAM

Lieut. A. Guarente giving a safety talk and showing film to students of the HARDY School

At the end of the school year one patrol leader from each school is selected by his peers to take a trip to Washington, D.C. at no expense to the Town. The remaining patrol leaders are invited to view an appropriate film at the Regent Theater.

Lieutenant Arthur Guarente, present safety officer, is a member and past president of the Massachusetts Safety Officers' League, which is made up of more than 200 safety officers from the surrounding cities and towns.

TRAFFIC ENFORCEMENT

	ACCIDENTS	CITATIONS	PARKING
1972	1085	4355	13799
1973	1069	4774	13254

Selective traffic enforcement means inforcement measured by the police which is proportional to the traffic accident experience with respect to time, place and type of violation. To this end there has been a maximum effort made on selective enforcement. Officers are assigned to radar surveillances in accident-prone locations.

COMMENDATIONS FOR THE YEAR 1973

The following men were cited for exceptional arrests and were commended by Chief F. A. Lucarelli:

Lieutenant Harry Ryerson, Jr.	Detective William Pease
Sergeant John Buckley	Officer James Walsh
Sergeant William Carroll	Officer David McNamee
Sergeant Cornelius Duggan	Officer Robert Hughes
Officer Francis McKenna	Officer James Allen
Officer Howard Clark	Officer Francis Bourgeois

An award for meritorius service for the year 1972 was presented to Officer James Crocker by the Arlington Kiwanis Club. (MAN OF THE YEAR AWARD)

An award for meritorious service for the year 1972 was presented to Lieutenant Harry Ryerson, Jr., by the Arlington Chamber of Commerce.

However dedicated the members of the department may be in the performance of their duties, we must urgently request citizens to assist us by reporting any crime they observe being committed. Do not delay, do not look for an officer, go to the nearest telephone and dial 643-1212, or ask the operator to call the police for you. Be certain to give the location where the police are needed. Furthermore, do not be offended if you are questioned by a police officer as to your identity and business in the area, as it is the officer's assignment and routine duty to question you under certain circumstances. Remember, his job requires that he risk his life, if necessary, to protect you. Law abiding persons have nothing to fear from the police.

Dog Officer

I herewith submit my report as Dog Officer for the Town of Arlington for the year ending December 31, 1973.

At this time, I wish to express my thanks to you and the Board of Selectmen for the advice and assistance given to me in the settlement of controversies arising between the dog owners and complainants.

I would also like to take this opportunity to thank Police Chief Lucarelli, his department and the office of the Town Clerk for the splendid cooperation given me through the past year.

In conclusion, I gratefully acknowledge the prompt attention given by the dog owners of Arlington to the licensing of their dogs this year, also abiding by the Leash Law.

PUBLIC SCHOOLS

School Committee

SCHOOL COMMITTEE

Seated, left to right: Mrs. Doris M. Cremens, William A. Carey, Jr., Robert H. Murray, Mrs. Dorothea W. Stein; Standing, left to right: Richard Kraus; George H. Buckley, Mrs. Ann Klein, William J. O'Brien, Charles Lyons

In recent times, each new year has seen changes in the membership of the School Committee. In March, 1973, Thomas D. Kenna, Jr., retired from the Committee after six years of service and Eugene J. Kirby retired after three years. The complexity of today's problems and the pace of today's living are reflected in the work of the Committee, and very few citizens are aware of what this means in terms of time, energy, and resources. For the young people and for the community, and for the other members of the Committee, I wish to thank these two men for their special gift of service to Arlington.

The calendar year 1973 brought a host of new problems to the Town and to the School Committee. Hours of Committee and administrative time went into plans for making available the "A Lunch" to elementary schools, in accordance with the mandate of the General Court. The sum of $56,000+ was carried into the 18-month budget to match three times that sum provided by the Commonwealth for the purpose of installing the necessary equipment in each of the schools, and to create a central kitchen. At the same time, the whole lunch program was redesigned and the labor force reassigned in an effort to bring new efficiencies into the food program.

As was alluded to earlier, this was the year for the 18-month budget, required of all cities and towns, to convert to a fiscal year beginning July 1 and ending June 30. This legislative act has impacted the 1973-74 budget and will again impact the 1974-75 budget, as salaries paid to teachers in summer months are programmed into these two years. Considering the options available to the Town in handling this problem, the School Committee and the Finance Committee agreed to handle the cost over two years as shown above.

Another major assignment shared by the Permanent Building Committee and the School Committee was the school building program. No sooner had the Town Meeting given approval to the renovation and expansion of the Ottoson and the Junior High East, but work was begun on plans for the Senior High School. A special "Committee of Nine" created by the Selectmen, recommended to the Permanent Building Committee that major steps be taken to expand the site of the High School, and to include within the high school project recreation facilities which would not only upgrade the high school but become community facilities, all year round, when not in use for regular day school programs. The October Special Town Meeting approved all of the land takings as proposed, provided monies for preparing final plans, and established a special study committee for the purpose of finding the best site for relocating the Town Yard, so that the Yard land can become part of the school site.

In this same October Town Meeting, approval was given to acquire a small piece of land to expand the Parmenter playground area. This small additional piece of land is to be included in plans for improvement of playgrounds as proposed by the Arlington Recreation Facilities Committee.

In preparation for meeting the requirements of new legislation for students with special needs, the School Committee approved a two-year program. This program has allowed the Committee to arrange programs and space, and to acquire necessary staff to meet the requirements of Chapter 766. The major concern with this new legislation is not with its intent to help children, but with the lack of State funds to support it.

Because each session of the General Court has brought new mandates and additional impacts upon the school budget, a new kind of Legislator/School Committee cooperation is imperative. Good cooperation already exists in Arlington, but a more direct exchange of information is necessary so that newly mandated programs are funded with new monies, and not transferred to the local tax rates.

Safety inspections of the schools by the Arlington Fire Department and the Department of Public Safety of the Commonwealth were completed this year, and new fire and safety regulations adopted by the School Committee. Many "homemade" items, pieces of carpet, and many donations of upholstered furniture were removed from the schools at the direction of the inspectors. Some of these items are being replaced with materials certified as fire retardant, and by purchases of new pieces of furniture which are engineered for flexibility and versatility. Every effort is being made to keep our programs and furnishings vital and functional, without running the risks of increasing fire hazards.

The energy crises came to the schools in a rush, and has affected the budget, maintenance and custodial programs, and the hours of attendance. Transportation programs were reviewed, thermostats were lowered, and with the early return to "daylight savings time", elementary schools hours were adjusted slightly. Within the curriculum, students are studying the impact of the crisis upon the American way of life.

Late in the year, approval was given for a study of the central administration by a seminar team from Harvard, at no cost to the Town. The thrust of this study will be to determine the efficiency of the present table of organization, responsibility required at second and third levels of management and the effectiveness of the communication system.

The following staff members, with years of service ranging from ten to twenty-five years, retired during this year. A special word of thanks is sent each of them, along with a wish for many happy years of retirement:

Raymond S. Locke	Ruth W. Henry
Edna M. Reid	Evelyn Ribeiro
Martha B. Speedie	Julia E. Scamman
Robert E. Mitchell	Helen G. Darcy
Alma S. Gallagher	Bernice W. Littlefield
Marion G. O'Connor	Genevieve J. Humphrey
Margaret S. O'Connell	Nora D. Kerwin

The Arlington School System was saddended in 1973 by the death of Marion MacFadyen, Supervisor of Nurses. Marion had given many years of exceptional service to the children of Arlington prior to her passing.

Although it is not the custom to recognize persons who resign from the Arlington Public Schools to accept employment elsewhere, it seems only fitting to make an exception and note that Robert L. Stevenson, Principal of Parmenter School, left the Arlington System after nearly 30 years of service to take a similar position nearer his home.

Superintendent of Schools

SUPERINTENDENT OF SCHOOLS
William T. Gibbs

While the year of 1972 witnessed extensive changes in the administrative organizational, and middle-management structures within the Arlington Public Schools, 1973 brought an emphasis upon the revitalization of our physical structures with the breaking of ground and beginnings of extensive renovation and addition projects at the Ottoson Junior High School and at the Junior High School East. At this very moment the walls are rising which will include within them sound, exciting middle school programs to meet the space needs and overall program needs which the community has faced for many years. A series of votes on warrant articles at a Special October Town Meeting set in motion a plan which is designed to expand the present limited site of Arlington High School and to provide an expanded and renovated educational facility. This action will enable us to provide a program of studies to meet the needs of our high school students and to meet the need for a continuing educational and recreational program for the community at large. A revitalized Arlington High School will serve as the very keystone of our system and as a tangible symbol of the community's search for excellence.

The Town Meeting voted in essence to complete the next step in the series of recommendations presented by Booz-Allen & Hamilton, in the long-range proposal document entitled "A Plan for the Improvement of Public School Facilities in Arlington". In review, Booz-Allen & Hamilton suggest that the next vital step in sequence is to bring the senior high school facilities up to standard through a project which would include addition and renovation of the plant and expansion of the present overcrowded site. The overview by Booz-Allen & Hamilton was reinforced through a visitation at the high school by an evaluating team from the New England Association of Colleges and Secondary schools in the fall of 1973, and even further reinforced by representation from the School Building Assistance Bureau of the Commonwealth's Department of Education.

The planning effort surrounding the high school project brought together a representation from many of the elected and appointed boards in the community, including the Permanent Building Committee, the Conservation Committee, the Redevelopment Board, the School Committee, the Board of Selectmen, many departments under the Town Manager's area of responsibility, the School Dpartment, and a special Citizens Advisory Committee created by the School Committee. Many alternative plans were considered before acceptance of the present plan presented by the architectural firm of Rich, Lang & Cote to expand the present site from approximately 19+ acres to 27+ acres. Plans also include extensive renovations and additions including a new academic wing with modern science laboratories, a learning resource center (library and media), a computer center, business education labs,

and related classrooms, interchangeable academic classrooms, math labs, and functional administrative center. Additions will lso include greatly needed physical education facilities for instructional programs, interscholastic competitions, intramural athletics, and student and community related recreational use.

A letter dated December 7, 1973, was received by our Administrative Headmaster, Mr. George Fusco, from Dr. Richard J. Bradley, Director of Evaluation, Commission on Public Secondary Schools, the New England Association of Schools and Colleges, indicating receipt of Arlington's Special Progress Report. Dr. Bradley indicated in his letter that, "The Commission was pleased to note that the citizens of Arlington, at a recent Town Meeting, approved all warrants relating to the renovation of Arlington High School. The Commission trusts that the staff and administration will begin to plan the curriculum expansion necessary to make optimum use of the new facilities and to address themselves to the other valid recommendations which were made in the original evaluation report and not yet fully operative." Arlington's responsibility is to provide reports to the Commission on Public Secondary Schools pointed to specific progress in the development and alteration of space in our physical plant in order to continue membership in the New England Association of Schools and Colleges.

Repatterning, reorganizing and changing of programs, personnel and courses, have continued to be the order of things in Arlington. Ralph Gioiosa, who had served with distinction as Industrial Arts Department Head, for many years, was named Director of Occupational and Career Education. This new position replaced that of Director of Arlington Technical-Vocational School, and now includes within the job specifications, responsibilities for developing, evaluating and conducting programs in occupational and career education, kindergarten through grade twelve. This directorship also serves as Arlington's direct liason with the new Minuteman Regional Vocational Technical School, which is scheduled to open in September, 1974.

The new Occupational Education Program has developed rapidly to include a wide variety of cooperative work-study programs including Business Education, Distributive Education, General Cooperative Works Study, Advanced Technical-Vocational Work Study, and the Flexibly Scheduled School Day Program. The latter program ranges in depth from students participating in courses at the Lincoln-Filene Center of Government at Tufts University to tutoring our elementary children in Arlington's schools. Over 795 student hours each day are involved in one phase or another outside of the school in occupational-career programs. Students at Arlington High run their own Day Care Center and plan to expand this to include a Nursery School as well, for the forthcoming fall. Patterns of course structure in Home Economics in Child Growth and Development, Family Living, Experiences with Children and Nutrition, all reflect changing interest in our society.

Dr. Harry Levinson of the Harvard Business School, and Director of the Levinson Institute provided a valuable service through an Organizational Diagnosis at the Junior High School East. The essential purpose of the diagnosis is to closely analyze the structure of the organization in the light of its functioning effectiveness. At the present time, at no cost to the Town, a Levinson team is evaluating the Central Administration structure.

Evaluation is a vital part of any planning effort and the Arlington High School staff is reacting in a number of significant ways to the study completed by the New England Association of Schools and Colleges.

In preparation for our future new and renovated facilities, we have embarked on a visitation program by our faculty members. The purpose of the program is to have our faculty visit new or comparatively new high school facilities in order to obtain ideas which could be contained in our new construction. These visits are being made with our own educational philosophy, needs and plans for the future in mind. The faculty and administration are looking forward very eagerly to participation in the input of ideas for the new construction. This is being done on a departmental and house basis. We plan to include students and also indiviuals from the community in the input process.

We believe the House System as it has existed at Arlington High School has become strengthened this past year. This has become very evident in the smoothness with which faculty and student matters have been handled on the House level. Teacher evaluations have become more meaningful and relevant with the addition of the Housemasters in this process.

One of the highlights and innovations of the past year was the Student Careers Night which was excellently organized by the Guidance Department. This event was received with great enthusiasm by students, parents, teachers, and exhibitors. It is our hope to expand further in this direction to include larger numbers of the career occupational opportunities exhibits to our students.

In summation, the goals set by the high school administration for the year 1973 have been:

1. To implement the recommendation of the Evaluation Committee as far as reasonably possible.

2. To create a steering committee, via departmental sub-committees, for the purpose of an on-going self-evaluation process.

3. To assess our physical needs in relation to our projected educational goals of the future and to have a direct input in the building process of new construction/renovation.

4. To maintain open lines of communication with staff, students and parents via a strengthened House System.
5. To plan for curricular changes and expansion in readiness for our new physical plant construction/renovation.

6. To expand the areas of the Flexible School Day programs in order to more greatly meet the career, vocational, and educational needs of a larger number of our students.

7. To continually seek to make the teacher-learning experience for our students a more productive and happier one by the implementation, as far as possible, of the above-mentioned goals.

All of Arlington's Junior High Schools are now grouped in Clusters of approximately 100 students working closely with 4 basic subject teachers in mathematics, English, social studies, and science, along with supportive staff in physical education, reading, home economics, art and industrial arts. Construction is well underway with a target date for completion of September, 1974, for renovation-addition projects at the Ottoson and East Junior High Schools. The planning for these two important projects should produce one of the most exciting middle school programs in New England. Spy Pond East and the Central School Cluster have focused regional attention upon Arlington and we have been visited by many communities, and have been included in a University of Massachusetts publication on alternative schools.

At the elementary level, programs are being developed to ensure a balance between those curriculum areas that are mainly intellectual and those that are mainly skill oriented. Thus, elementary children visited such places as the Louisa May Alcott House, Boston College Computer Center, The Children's Museum, The Children's Theatre, The Freedom Trail, Hammond Castle, Museum of Fine Arts, Peabody Museum and Sturbridge Village. Each of these places, in some way, helped children to develop an awareness of the past, a curiosity about their heritage and was, to varying degrees, an intellectual stimulant.

In addition, we expanded a pilot program — Arts For Intergroup Relations Education. This program, now being taught in seven of the elementary schools, uses the dance, dramatics, music, art and photography as the medium for gathering facts about people so that children can better make judgments about the behavior of individuals and groups. In addition, project AFIRE also uses the arts to help children learn more about the contributions of many groups to the development of the American nation.

This year, for the first time, all elementary children in either the fifth or sixth grade had an opportunity to participate in the Arlington Outdoor Education Program. During this period of roughing it the children have had an opportunity to study the ecology of a region; they have learned to work as a team and accept responsibility for their own actions. This has been an extremely successful program that has provided each of the children with a thoroughly enjoyable experience coupled with a lot of hard work.

While the above programs have been more geared to sharpening the children's intellectual capacities, others have been aimed at developing specific skills. Foremost among these has been the implementation of an individualized reading program for primary grade children who are experiencing difficulty in mastering specific reading skills. By a judicial rearrangement of programs and an elimination of staff we have been able to add reading teachers without a significant increase in the budget. In addition, we have started to add centers at several schools to provide an individualized program for those children with emotional problems.

However, the common thread that runs through all of our programs is the development of the ability to apply critical thinking to a variety of problems. The Unified Science and Math Program was introduced to three schools last year and is being introduced into the curriculum at three more schools this year. This program was designed to give students an opportunity to apply critical thinking skills. The children undertake a problem that requires many hours of investigation, they then proceed individually or in collaboration with their peers from discussion and observations to the point of trying out their suggestions. During each phase of the investigation the child is forced to think critically about the problem as well as the suggested solution.

Several other kinds of changes occurred during 1973, and although they have an impact on our programs, were not designed as curriculum changes. For example, this year all elementary schools are on a single-session day for the full school year. This change came about as a result of legislation that requires all schools in the Commonwealth to provide children with the opportunity to be served a lunch in school. However, only one of the eleven elemen-

tary schools has a cafeteria and we have been forced to use playrooms and auditoriums as dining areas. In addition, we have had to provide preparation and serving areas within the schools. Thus, even though the state paid for seventy-five percent of the cost of the equipment, we have had to give up valuable space within our schools.

In 1973, we experienced still one other kind of change — a reversal to the trend upwards in school enrollment. There were two hundred and twenty less children in the two hundred and six elementary classrooms. And, while we had a drop in enrollment, we still had to try and manage the problem of inadequate space for many of our programs. The learning disabilities tutors, reading teachers, counselors, tutors for the emotionally disturbed and our art and music specialists have been working in make-shift spaces and will have to do so until adequate space becomes available.

We are maintaining a constant check on all enrollment figures and we are building the latest available information into all of our projections. Should the trend towards decreased enrollments continue then we shall have to study carefully each of our school districts boundaries. It is conceivable that we might be forced to re-district the entire town if we are to maintain an efficient use of the present school buildings. At the same time, we will have to evaluate the location of each of the demountable classrooms. There is a distinct possibility that we might make more efficient use of these buildings at other locations.

The Pupil Personnel Services Department engaged in a wide variety of activities during the year of 1973. In addition to providing instructional services for approximately 300 learning disabled children, 110 retarded children, and 45 children with emotional problems, there were also 300 speech and language evaluations and approximately 240 children being seen by our Speech Therapists. Additionally, there were a large number of parent visits, home contacts, medical referrals, and core evaluation teams held in regard to individual students and families. Learning Teams were developed in all schools and are functioning in a most effective manner determining programs for individual students at the various schools.

One of the major thrusts of the department was preparation for Chapter 766. This comprehensive Special Education Bill goes into effect in September, 1974. The department began planning for this bill by adding several staff members and setting up intricate procedures for evaluation and program delivery. We also explored, with neighboring communities, collaborative programs to meet the needs of low incidence special needs children in all the communities. The major impact of this legislation will be felt in the 1974 calendar year, but Arlington was well on its way to developing comprehensive services and a long range plan for their delivery.

In-service programs were set up for many departments throughout the Town in addition to the regular Pupil Personnel In-Service programs. Consultation services were provided for both the elementary and secondary schools. Programs in group counselling, affective education, group dynamics, and handling of special needs children were provided. In-service programs will continue throughout the coming year to enable regular class educators to be prepared when Chapter 766 must be implemented.

Another major emphasis this year was the utilization of reading teachers, learning disabilities specialists, and other support personnel within the classroom itself. Five additional reading teachers were added to the elementary school staff to emplement the primary reading program. it was felt that having the specialist work in the classroom to assist teachers in developing individualized curriculums and provide support services would, in time, cut down on the number of referrals and the need for actual remedial instruction. This program has begun to prove effective and we are sure will continue to do so in the future.

Pupil Personnel Services is working with parent groups, the Office for Children, Mystic Valley Mental Health Center, and other support agencies to plan and deliver the most effective services to special needs children in the Town of Arlington.

To Arlington's professional staff, public officials, our children and to the residents of the community, I extend my thanks and appreciation for the support rendered during the past year. Particularly I am grateful to the members of the School Committee for their countless hours and dedicated effort on behalf of the citizens of Arlington.

Respectfully submitted,

William T. Gibbs

Superintendent of Schools

Minuteman Regional Vocational Technical School District

In the spring of 1971, the towns of Acton, Arlington, Belmont, Boxborough, Carlisle, Concord, Lexington, Lincoln, Stow, Sudbury, Wayland and Weston voted to establish the Minuteman Regional Vocational Technical School District. Since then the District has made significant progress. Our goal is to open a regional vocational technical high school in September 1974.

In 1971 Superintendent-Director Samuel Sains was employed by the Regional School Committee, a $900,000 bond issue was authorized and approved for site acquisition and planning costs, a site for the new school was selected, and educational specifications for the school were developed. Major milestones in 1972 included the selection of Drummey Rosane Anderson, Inc. of Wellesley as architects for the new school, the completion of building plans and specifications, the authorization of a $12,900,000 bond issue for constructing and equipping the school, and the award of a construction contract on October 26, 1972, to White Construction Company of Burlington, the low bidder. The Minuteman School is located at the Lexington-Lincoln line, a short distance west of Route 128 and south of Route 2A.

During 1973 construction continued. Minuteman now has a building where but a year before there was only a pile of pipe and wood chips. The school's structure and exterior masonry are complete and the building virtually closed in. Interior finishing, mechanical and electrical work, equipment installation and furnishing are now taking place inside the nearly complete shell. Construction has been on schedule to date, so that a September 1974 opening appears still to be a realistic target.

The temporary school offices are in Wayland. In September 1973 our staff was enlarged by the addition of seven teachers and two student program coordinators. This core group participated in an intensive training and orientation session during its first two weeks at Minuteman. Since then this group has proceeded to outline educational processes for the school and plan the techniques which will be used to put them into practice. The student program coordinators have been contacting representatives of the school departments in the twelve member towns. They have been planning an information program for students on Minuteman and application and admission process.

We have had extensive investigation and discussions with the Educational Advisory Committee. This committee consists of the Superintendents of Schools from all the member towns. As a result of these discussions, the Minuteman Regional School Committee has adopted an open admission policy designed to serve students with varied interests, abilities and needs. The Committee plans to review continually the actual operation of the procedures established for admission to Minuteman.

A freshman class of 450 students is scheduled to enter in September 1974. The Committee has voted to base each town's quota in this class on the ratio that the number of pupils in grades 9 through 12, residing in and receiving education at the expense of each member town, bears to the total pupil enrollment in grades 9 through 12 throughout the District. This ratio is also the legal basis for apportioning Minuteman costs among the member towns for the 1974-75 fiscal year. Should the number of applicants from a member town exceed its quota, that town may select up to 20% of its quota in a manner determined by that town. The remaining 80% of each quota would be chosen by a random selection process.

An information booklet on the Minuteman School has been distributed to parents of 8th graders in all of the member towns and to each junior high or middle school. The booklet describes the location and layout of the building, the school's course offerings and its educational process, and includes complete information on how to apply for admission.

Current plans call for hiring an additional group of faculty in February of 1974. Once the new teachers have been familiarized with Minuteman philosophy and processes by the core group, the entire staff will plan and develop the curriculum for the school's opening in 1974, and ensure that the necessary materials are available for the programs being offered in the first year. The first year vocational and technical course offerings will be:

Building Trades	Foods
Power Mechanics	Distributive Education
Machine Shop	Health Services
Metals Fabrication	Commercial Art
Horticulture	Electronics
Printing	Instrumentation

Students will also be required to take courses in:

Communication Arts (English)	Mathematics
General Science	Human Relations (Social Studies)

The Minuteman School Committee and staff look forward to completion of the building in the summer of 1974 and to welcoming the first freshman class in September.

The Committee notes with sorrow and deep regret the death on Christmas Day, 1973, of Paul Alphen of Wayland. Paul served as a member of the original Minuteman Regional School District Planning Board and, since the establishment of the District in 1971, as the Minuteman School Committee member from Wayland. As Chairman of the Policies Subcommittee and a member of the Building and Budget Review Subcommittees, Paul made a significant contribution to the Minuteman School. His dedication, hard work and good humor will be sorely missed.

With the death in September 1973 of Vernon C. Page, we lost yet another friend and co-worker. Vernon, a member of the Lexington School Committee for many years, was a past member of the Minuteman Regional School District Planning Board, a member of our Building and Site Committee, and an enthusiastic supporter of vocational education. We shall miss Vernon and his advice and support which always expressed his warm concern for youth and his belief in the importance of expanded educational opportunities.

During 1973 four members of the original Minuteman Committee submited their resignations. Anna Manion of Concord resigned following her election as a Selectman in the spring of 1973, and Walter Verney of Arlington resigned in September. In December Erik Mollo-Christensen of Lexington, the Vice-Chairman of the Committee, and Glen Pippert of Stow, Chairman of the Education and Curriculum Subcommittee, announced their intention of retiring in early 1974. Each contributed greatly toward building a strong basis from which Minuteman will develop. Their contributions to our success were invaluable.

The entire committee and staff express their appreciation to the school and town officials, parents and townspeople in the District's twelve-member towns for their cooperation and understanding, without which the progress achieved to date could not have been sustained.

Acton	Charles E. Courtright
Arlington	Rico A. Merluzzo
Belmont	Henry L. Hall, Jr., Chairman
Boxborough	Roger H. Morse
Carlisle	Kenneth L. Bilodeau
Concord	Lydia A. Smith
Lexington	Erik L. Mollo-Christensen, Vice-Chairman
Lincoln	Ruth W. Wales
Stow	Glen F. Pippert
Sudbury	Alfred C. Cron
Wayland	Paul F. Alphen
Weston	Albert V. B. Kelsey

ARTICLE 63. AMENDMENT OF ZONING BY-LAW (Non-Conforming Buildings and Uses). Zoning By-Law amended by deleting Section 7, Non-Conforming Buildings and Uses, and substituting therefor a new Section 7, Nonconforming Uses, Buildings, and Lots. VOTED (Standing Vote, 133 in the affirmative and 2 in the negative).

ARTICLE 64. AMENDMENT OF ZONING BY-LAW (Exceptions and Variances).Zoning By-Law amended by deleting subparagraph 1 (a) of Section 4A and by renumbering the existing subparagraphs from 1(b), (c), and (d) to numbers 1 (a), (b), and (c). VOTED (Standing Vote, 156 in the affirmative and 1 in the negative).

ARTICLE 65. AMENDMENT OF ZONING BY-LAW (Residence Districts) WITHDRAWN.

ARTICLE 66. AMENDMENT OF ZONING BY-LAW (Definitions). Zoning By-Law amended by deleting definitions from Section 6 and inserting new definitions in their alphabetically appropriate places: "Frontage"--The front part of a building or lot abutting on a public or private way approved by the Town. A corner lot fronts on the street which it is numbered. "Yard"--A space required by law on a lot equal to the minimum set-backs and areas required on the lot for the district in which is located, upon which no permanent buildings shall be located except as provided elsewhere in this by-law. "Yard, Front"--A yard across the full width of the lot extending from the front lot line to the building line. "Yard, Rear"--A yard across the full width of the lot extending from the rear lot line to the building line. "Yard, Side"--A yard between the side lot line and the building line and between the front yard and the rear yard. VOTED unanimously.

ARTICLE 67. AMENDMENT OF ZONING BY-LAW (Definitions) Definitions deleted from Section 6 of Zoning By-Law and inserted in place thereof the following: "Garage, Private"--Any building, or portion of a building, accessory to and located upon the same lot as a residential building, which is used for the keeping of a motor vehicle or motor vehicles and in which no business or industry dealing with the sales, servicing, or repair of such vehicles is carried on. "Garage, Public" -- Any building, or portion of a building, used for the keeping of motor vehicles and in which a business or industry dealing with the storage, repair, or servicing of such vehicles is maintained; also, any garage not a "private garage". VOTED unanimously.

ARTICLE 68. AMENDMENT OF ZONING BY-LAW (Location of Private Garages) Section 12-A deleted from Zoning By-Law and inserted in its place the following new section: Section 12-A. Location of Private Garages - Private detached garages located in the rear yard need not conform to side yard and/or rear yard setbacks, but shall be governed by the following table. No garage shall be constructed in the front or side yard.

Construction Type	Setback required from Side Lot Line	Setback required from Rear Lot Line
Type 1 and Type 2	None	None
Type 3	6 feet	6 feet
Type 4	10 feet	10 feet

VOTED unanimously

ARTICLE 69. AMENDMENT OF ZONING BY-LAW (Definitions - Swimming Pool) TABLED (See adjourned meeting 4/18/73).

ARTICLE 70. AMENDMENT OF ZONING BY-LAW (Swimming Pools). TABLED (See adjourned meeting 4/18/73).

AUDITOR'S REPORT

I have examined the books and accounts of the Trustees of the Elbridge Farmer Fund for the year ending December 31, 1973, and find that the report of the Trustees for that year showing income of $2 683.56, Disbursements of $2 678.00 and balance of Undistributed Income on December 31, 1973 of $5.56 fairly represents the transactions of the Fund for that year and the Investment Account total of $53 101.15 is correct.

I have examined the securities composing the Investment Account as follows:

Arlington Five Cents Savings Bank - Savings Account #503398	$ 3 000.00
Arlington Five Cents Savings Bank - Term Deposit Certificate #690	5 000.00
Cambridge Savings Bank - Savings Account #601218	3 423 38

PUBLIC SAFETY

Fire Department 103A

Police Department 109A

Dog Officer 126A

Deputy Chiefs are assigned to the following phases of Fire Prevention in addition to their regular firefighting duties.

Deputy Chief Francis M. Doherty - Mercantile Inspections.
Deputy Chief Irving L. Proctor - Quarterly Inspections of Nursing Homes, Symmes Hospital and theatres.
Deputy Chief Charles J. Doherty - Periodic inspection of all rooming houses and the quarterly testing of fire alarm boxes.
Deputy Chief Robert E. Kelly - In charge of Fire Alarm Center and communications, fire alarm dispatching and operation thereof.
Deputy Chief Warren R. French - Fire Prevention & Director of Civil Defense.

HOSE TEST

The annual testing of fire hose was carried out under supervision of the Training Division at Spy Pond Field, Eastern Avenue Playground and Highland Station. Auxiliary fire pump was used for testing purposes. Members of the Department received instruction in operation of said pump.

PUMP TESTS

The annual service test of all pumping apparatus was conducted under direction of D. Barter, Department Master Mechanic and the Training Officer, Captain James J. Kelly, during the month of September.

EDUCATIONAL

Four firefighters attended a four-day course at Harvard University on "Emergency Care and Transportation of the Sick and Injured" in June 1973 sponsored by American Academy of Orthopaedic Surgeons.

Fire Science programs are in progress at local community colleges (Massachusetts Bay, Bunker Hill, and Middlesex Community Colleges) designed to provide advanced fire training for fire service personnel. Many members of the Fire Department are presently attending these courses and receiving credit hours leading to an Associate Degree in Fire Science. One firefighter will receive his Associate Degree in 1974.

DETAILS

Firefighters were detailed to stand-by duty as a precautionary measure to guard against fire during welding operations or when blow torches were used for repairs in schools or public buildings.

Firefighters were detailed at Park Circle Station when in quarters during school hours for traffic duty in that section to protect school children.

The Highland Station was used for registration of voters and voting purposes by the Town. Park Circle Station was used by a few civic groups as a meeting place.

Apparatus participated in the following parades:

Patriots' Day - Arlington and Lexington - April 16
Memorial Day - Arlington - May 28
All America City - Somerville - September 16
Veterans' Day - Arlington - October 22

APPARATUS AT HEADQUARTERS

Engine 1 (1954 Mack), 1000-gallon pumping unit
Engine 4 (1973 Maxim), 1250-gallon pumping unit
Ladder 1 (1961 Mack), tractor attached to 1968 Seagrave trailer, 100' aerial ladder truck
Rescue 1 (1971 Ford) (Emergency transportation vehicle) put in service August 9, 1971
Life Boat (1952), 14 foot metal boat with 1973 outboard motor and lifesaving equipment
Chief's car (1973 Ford)
Deputy's car (1973 Ford)
Fire Prevention car (1971 Ford)
Utility pick-up truck (1971 Ford)

APPARATUS AT HIGHLAND STATION

Engine 2 (1965 Mack), 1000-gallon pumping unit
Ladder 2 (1952 Seagrave), non-tractor drawn 65' aerial ladder truck
Ladder 3 (1949 Seagrave), spare, 750-gallon pumping unit and a non-tractor drawn 65' aerial ladder

APPARATUS AT PARK CIRCLE STATION

Engine 3 (1954 Mack), 1000-gallon pumping unit
One (1) 500-gallon auxiliary trailer pump (1941 Buffalo), Engine 15

Total Interviewed	87	104

Action was taken against 103 of the operators involved in these accidents through the Courts and through the Registry of Motor Vehicles by the Arlington Police Department.

The three fatal accidents which resulted in the deaths of three persons during 1973 were as follows:

On March 5, 1973, at about 3:30 PM., David B. Ottaviano, 18 years of age, of 121 Lowell St., Somerville was struck and killed instantly by a State Police Cruiser while he was fleeing from a car he had stolen and which had been involved in an accident on Route 2.

On July 7, 1973, at about 7:40 PM., Joanna Halloran, 73 years of age, of 49 Alton St., Arlington, a pedestrian on Mass. Ave. at Medford St., was struck by an automobile and received injuries which resulted in her death on July 16, 1973.

On October 20, 1973, at 2:40 AM., Peter F. Milley, 48 years of age, of 144 Page Rd., Bedford, was the operator of an automobile which struck a telephone pole on Mass. Ave. at Drake Rd. Milley received injuries from the accident which resulted in his death on October 21, 1973.
